

Population Control

By Al Duncan

We're in a war. The attacks against us aren't always physical. It's a spiritual war. This is a war against morals, principles, and the foundation of truth and life.

The hidden agenda behind the Abortion issue, Homosexual Rights, AIDS and other deadly viruses that threaten the existence of humanity is population control. Although we know that the powerful elitists controlling the world today are a threat to humanity, they're mere vessels used by the author of all demonic activity, Satan.

Dr. Dennis Cuddy, *Conspiracy: Secret Records Revealed*, writes, "Renowned Dr. Richard L. Day, the National Medical Director of Planned Parenthood from 1965 to 1968, announced in a speech in Pittsburgh in March 1969, in regards to population control: 'Everything is in place, and nobody can stop us now.' This time we're going to do it right. Contraceptives would be dispensed at school; abortion would become legal and paid for by tax dollars; homosexuality would be promoted as no longer to be considered abnormal behavior, hard-to-cure diseases would be created; a hard-to-detect means had been developed for inducing heart attacks; drug and alcohol addiction would be promoted so the unfit would die; euthanasia would be more accepted as the cost of medical care would intentionally be made burdensomely high..." and the list goes on.

ABORTION

Partial Birth Abortion is a procedure that the mainstream-media usually won't address. This procedure is performed up to the time of birth/delivery — or 9 months into the pregnancy. Instead of delivering the baby, the doctor pulls the child out by the feet just far enough to insert an instrument in the back of the baby's skull and the child's brains are sucked out. The baby is then discarded as medical waste.

"It has no place in a civilized society. The issue we're talking about is killing; we're talking about killing babies," said Rep. Sue Myrick, North Carolina Republican, in *The Washington Times*, July 24, 1998.

Senator Peter Fitzgerald says: "It is barbaric. It is cruel. It is killing. It is inhumane." The Partial-Birth Abortion Ban Act (H.R. 1122) has passed the House unanimously since 1995, each time Clinton has vetoed it. And yet, 75 percent of Americans are in favor of banning this act, and at least 23 states have already banned the procedure.

"Nearly two-thirds of hospital-based registered nurses in the United States say they would refuse to work in an OB/GYN unit where abortion procedures are performed," according to results of a poll conducted by Reuters Health magazine, March 18, 1999. And, "The issue of partial-birth abortion elicited a strong response from respondents, with nearly two-thirds of nurses saying that partial-birth abortion should be prohibited by law. It is a gruesome procedure."

Concerned Women for America's (CWA) Illinois State Director Karen Hayes recently uncovered disturbing

news about Christ Hospital in Oak Lawn. It routinely performs "live-birth abortions" which it labels "therapeutic." Babies deemed unworthy of life are delivered and left to die. In other words, it permits infanticides.

In *World* magazine, "The Harvest of Abortion", Oct. 23, 1999: "AGF is one of at least five U.S. organizations that collect, prepare, and distribute to medical researchers fetal tissue, organs, and body parts that are the products of voluntary abortions. The probe unearthed grim, hard-copy evidence of the cross-country flow of baby body parts, including detailed dissection orders, a brochure touting "the freshest tissue available," and price lists for whole babies and parts. One 1999 price list from a company called Opening Lines reads like a cannibal's wish list: Skin \$100. Limbs (at least 2) \$150. Spinal cord \$325. Brain \$999 (30% discount if significantly fragmented)."

Mr. Clinton signed the National Institutes of Health (NIH) Revitalization Act, effectively lifting the ban on federally funded research involving the transplantation of fetal tissue. The University of Washington in Seattle opened an HIH-funded [taxpayer funded] embryology laboratory that runs a round-the-clock collection service at abortion clinics. NIH itself advertises its ability to "supply tissue from normal or abnormal embryos and fetuses of desired gestational ages between 40 days and term."

Since the 1973 decision of Roe vs. Wade, Americans have murdered over 35,000,000 babies. This figure does not include the millions of babies murdered throughout the world due to America's policies under Planned Parenthood.

PLANNED PARENTHOOD

Margaret Sanger (1879-1966) was educated in England. Her mentor and lover, Havelock Ellis, was a disciple of Frances Galton, Charles Darwin's cousin and the first systematizer and popularizer of eugenics. She was the founder of Planned Parenthood [sterilization, abortion, contraceptives, and alternative lifestyles]. Margaret Sanger's belief was that the inferior races were in fact "human weeds" and a "menace to civilization". She wanted to end the Christian "reign of benevolence." With the Eugenic Socialists she promised, that the choking human undergrowth of "morons and imbeciles" would be "segregated and sterilized". Her goal was to create a pure race of Anglo-Saxons by encour-

aging more children from the fit and less from the unfit.

During the Carter Administration, "Ray Ravenhott, the director of population control programs for United States Agency for International Development (USID), revealed his agency's intention to help sterilize one quarter of the world's women. He argued that this need stemmed from the administration's desire to protect U.S. corporate interests from the threat of Third World revolutions spawned by chronic unemployment," (*Emerging Viruses: AIDS and Ebola*, pg. 234).

Washington Post, October 21, 1999: "Republicans shepherded a foreign aid bill that provided \$25 million in international family planning funds Congress had eliminated last year while resisting efforts to impose abortion-related restrictions on the money. Clinton vetoed the bill anyway, arguing it did not provide enough funding for his international priorities."

We learn from *Washington Watch*, April 1998 issue: "Peruvian government's population control programs are coercing the poor and underprivileged into receiving tubal ligations and other forms of sterilization. Women are often given free birth services if they agree to be sterilized."

"The Peruvian Health Ministry imposed monthly sterilization quotas on medical professionals under the threat of losing their jobs. While the government denies the existence of such quotas, the Peruvian Health Ministry has reported a total of 110,000 government-funded sterilization procedures in 1997."

"The U.S. Agency for International Development gave \$20 million to Peru's population control program..."

Allan Chase, author of *The Legacy of Malthus* in 1976, reported that up to 1974, the U.S. compulsorily sterilized more people than Nazi Germany. Commenting on this in "Social Cleansing" (*New Statesman & Society*, August 5, 1994), Alexander Cockburn writes: "The keenest of these cleansers were Northern liberals. Eugenic sterilization was most energetically pushed by progressive politicians, medical experts and genteel women's groups."

AIDS/HOMOSEXUALITY/ EUGENICS

Dr. Leonard G. Horowitz tells us in his book, *Emerging Viruses: AIDS & Ebola*: "In 1969, Dr. Robert Strecker, the head of The Strecker Group urged readers to: "Please wake up! [the]

United States Defense Department requested and got \$10 million to make the AIDS virus in labs as a political/ethnic weapon to be used mainly against Blacks. The feasibility program and labs were to have been completed by 1974-1975; the virus between 1974-1979. The World Health Organization started to inject AIDS-laced smallpox vaccine into over 100 million Africans (population reduction) in 1977. And over 2000 young white male homosexuals (Trojan horse) in 1978 with the hepatitis B vaccine through the Centers for Disease Control/New York Blood Center.

"In reference to Dr. Strecker's work regarding AIDS being deliberately deployed, particularly in Africa. As Dr. Jonathan Collin wrote in a 1988 issue of the *Townsend Letter for Doctors*: "[T]he epidemiology of multiple contaminated small pox vaccines given in the early 1970s would provide exactly the right timetable for such a widespread AIDS epidemic in Africa today. One in six [European] AIDS patients was African. These cases could be traced to eighteen sub-Saharan African nations. Two thirds of the African-linked AIDS cases in Europe, however, came from one country, Zaire, and 11 percent came from the nearby Congo. In Zaire, the virus was so widespread that scientists had a hard time constructing studies on risk factors. It was difficult to find a control group that was not infected."

According to the American Press, November 23, 1999, "A study from the UN Program on HIV/AIDS and the World Health Organization [the organization that helped finance the engineering of the virus] said 33.6 million people, including 1.2 million children, are carrying HIV, the virus that causes AIDS. Saharan Africa continues to be worst hit, with close to 70 percent of the global total of those with HIV. Most will die in the next 10 years, joining the 13.7 million Africans who have already died of AIDS."

NEW DRUG-RESISTANT STRAINS

Researchers are reporting that there are new drug-resistant strains of the AIDS virus appearing in the United States. Twenty to thirty percent of individuals newly infected with AIDS are carrying forms of the new drug-resistant virus, according to *Family News From Dr. James Dobson*. And, according to the Independent News, November 24, 1999, More than 95 per cent of the 33.6 million people estimated to be carrying the virus worldwide are unaware that they are infected.

In regards to the AIDS virus being deployed amongst the American homosexual, Dr. Collin wrote: "The United States Public Health Service (USPHS) notes the recipients were sexually active, having more than one sexual partner, and a particular risk for developing hepatitis. The homosexual populations given the vaccination were in six major cities, including New York, San Francisco, Los Angeles, St. Louis, Houston and Chicago. Epidemiologically, these cities now have the highest incidence of AIDS and ARC as well as the highest death rates from AIDS."

"The hepatitis B vaccine Strecker alleged infected the American gay community," states Horowitz, "was

Population Control

Continued From Page 9

...st certainly manufactured by ...k's company." The homosexual hepatitis B vaccine study had been supported by a grant from the Department of Virus and Cell Biology of Merck, Sharp and Dohme Research Laboratories, West Point, PA. The National Heart, Lung, and Blood Institute, of the U.S. Public Health Service's National Institutes of Health also provided grant money for the project.

A 1979 ad recruited volunteers for hepatitis-B vaccine experiments conducted by W. Szmunn and other investigators associated with the New York City Blood Center, Merck, Sharp & Dohme and the Center For Disease Control (CDC). And more than 7000 local gay men took part in the hepatitis study conducted in San Francisco alone. Nathaniel Lehrman, a medical physician and Life Fellow of the American Psychiatric Association, noted with suspicion that the percentage of gay men from the San Francisco hepatitis B study group who became infected with the AIDS virus rose dramatically and too quickly from 4 percent in 1978 to 68 percent in 1984...

DR. STANLEY MONTEITH

Dr. Stanley Monteith is an orthopedic surgeon, historian, published author, and a radio talk show host that lived in Africa for a number of years. He also heads HIV-war, an organization dedicated to preventing the furtherance of AIDS. "The average life span of an American male is 74 years," says Dr. Monteith, "but the average life span of the Homosexual male is 41 years. The typical homosexual interviewed in a 1982 study by the U.S. Center for Disease Control had 500+ sexual partners. USA Today (November 1984) has reported that the average homosexual has 50 partners per year, and that 79 percent have sex with strangers at least half the time."

Dr. Harold Feinstein of the CDC made this statement: "From a purely biological perspective, sodomy is an intrinsically unsanitary and pathological act. Empirical medical evidence clearly demonstrates that the rectum is designed for intermission by penises, fists, forearms, etc. Physiologically, the rectum is designed for the expulsion of feces. When sodomy is performed, the peculiar forced inward expansion of the anal canal results in a tearing of the lining as well as bleeding anal fissure. The damage to the rectal wall facilitates access to the bloodstream of AIDS-infected sperm and other disease causing organisms."

The Wall Street Journal, January 9, 1997: "Contrary to media propaganda, there is no proven biological basis for homosexuality. A November 1995 article in *Scientific American* pointed out that the much-publicized brain research by Simon Le Vay has never been replicated and that Dean Hamer's gene study has been contradicted by other studies."

As reported in the National Association for Research and Therapy of Homosexuality (NARTH) Fact Sheet, "A campaign to make 'treatment' of homosexuals unethical and illegal was recently set in motion by gay activ-

ists. Psychiatrists, psychologists or researchers who so much as suggest that homosexuality may be a changeable disorder are persecuted and labeled 'homophobic' by the powerful pro-gay lobby.

"Under intense pressure from gay socio-political activists, and without scientific evidence, the American Psychiatric Association voted to remove homosexuality from its *Diagnostic Manual*, and effectively silenced professional discussion of homosexuality as a disorder. Although modern psychology had considered the condition pathological for over 100 years, and all cultures have considered it deviant throughout recorded history, the official view of homosexuality changed overnight."

TV producer James Comack said: "Do you know the most powerful lobby in the entertainment business? It's the gays. If you don't have the approval of the Gay Media Task Force, you don't go on the air."

In August of last year, the federal government abandoned a 40-year-old policy by granting access to classified material to homosexuals. Administration officials met with 45 homosexual elected officials in June to strengthen White House ties with homosexual activists. Gay, Lesbian, or Bisexual Employees Group (GLOBE) has chapters actively operating in various federal agencies. And the list goes on (AFA Journal August 1995).

November 8, 1997, President Clinton spoke at a fund-raising dinner on behalf of homosexual activists dedicated to the gay and lesbian agenda. It was the first time in U.S. history that a sitting president had given the status and authority of his office to a group defined by their sexual behavior. Two days later, the White House and the president hosted a hate crimes conference at George Washington University during which Mr. Clinton told participants that public schools across the nation should institute pro-homosexual diversity programs. They should be designed, in his words, "to teach [children] a different way", (Dr. James Dobson's, Family News, June 1998).

"Any attack on a person or his property is a crime and punishable as such. Hate-crime laws add an extra penalty because the offense was spurred by malice toward a protected group. The additional punishment is for holding bad ideas. It's a short step from there to punishing pure advocacy." — Columnist Don Feder.

HOMOSEXUAL AGENDA IN CANADA

Nowhere is the homosexual agenda more successful than in Canada, where, unbelievably, it is becoming illegal to oppose or even criticize the movement. Several Canadian provinces have enacted human rights legislation that prohibits the publication of any statements deemed as discriminatory toward homosexuality.

Brookline High School sponsored a Homophobia Awareness Month depicting as homophobic anyone who disagrees with homosexual behavior. The school offered \$50 prizes to students "whose work best depicts some aspect of homophobia."

Rutgers University bans "belittling comments" about homosexuals; pro-

vides an assistant dean for homosexual students; and puts freshmen through sensitivity training where they watch a pro-homosexual video. Meanwhile, homosexuals proclaim their queerness at so-called "Coming Out Day," celebrate their "outing" at "Kiss-ins", live in gay friendly residences, conduct research in "gay archives," work at a campus "gay hotline," enroll in gay and lesbian studies, and eventually join a Gay & Lesbian Alumni Association.

Such philosophy is clearly endorsed by the National Education Association (NEA), the massive teacher's union which exerts a powerful pressure on all of our public schools. As stated in its 1995-1996 Resolutions, the NEA actively promotes "effective ongoing training programs for the purpose of identifying and eliminating sexual orientation stereotyping."

The NEA-supported "Project 10" materials include samples of letters urging homosexuals to "come out" (reveal their sexual lifestyle). In this program children are taught that AIDS is difficult to contract through homosexual intercourse (in spite of the Surgeon General's warning to the contrary).

"FUELED WITH FEROCIOUS BITTERNESS"

It's Elementary: Talking About Gay Issues in School is a video designed to introduce young schoolchildren to homosexuality. It positions the biblical view on homosexuality as bigoted, allows the genetic explanation for homosexuality to go unchallenged and, in general, sells homosexuality as a wonderful, healthy lifestyle.

Although Christians are often accused of "hating" homosexuals (Dr. D. James Kennedy, for example has been harassed, picketed, called names, humiliated, and threatened), and gays have positioned themselves as driving for 'tolerance', the homosexual movement has been driven to a significant extent by hatred. "There will be no compromises," wrote homosexual activist Michael Swift in his "Towards a Homoerotic Order" in the "Guide" (November 1987). Those who oppose us will be exiled. We shall be victorious because we are fueled with the ferocious bitterness of the oppressed who have been forced to play seemingly bit parts in your dumb, heterosexual shows throughout the ages. We too are capable of firing guns and manning the barricades of the ultimate revolution."

NYNEX (a \$13-billion-a-year communications giant) announced at the end of last year that it would lay off

thousands of employees to improve its financial position, but it's still spending part of its revenues to give five homosexual employees and their sexual partners the same benefits and privileges as married employees. Disney, Time Warner, Microsoft, and Sprint have reportedly provided similar benefits.

"Gay partnership benefits like these are a key demand of the radical homosexual movement. They're also pushing for adoption privileges. But these are only preliminary battles designed to 'soften up the field' for the most important conflict. The legalization of homosexual marriage.

"The legalization of homosexual marriages is the single most dangerous step our society can take, for it effectively redefines the concept of family and officially thumbs our national nose at God's moral law," *Human Events*, December 15, 1995 and *USA Today*, January 10, 1996.

"Never before in American history has there been such a concerted effort to corrupt the morals of an entire generation," says Beverly LaHaye, Chairman of CWA.

Dr James Dobson reported in his ministry's *Focus on the Family*, June 1993 publication that his organization has been harassed for its biblical stand on homosexuality. Caskets have been brought to the front door, bricks thrown through office windows, bloody animal parts left on the property, buildings spray painted, bomb threats delivered, and untrue rumors circulated. "Nevertheless, we have not returned evil for evil," Dobson writes, "nor do we intend to do so."

"Nevertheless, we as believers are commanded in numerous biblical passages to care for and love all men and women, regardless of their sin. We must always remember that regardless of the gravity of the issues at hand, we are commanded to demonstrate Christ-like love to those with whom we disagree," exhorts Dr. James Dobson.

Yes, we are being engaged in spiritual warfare. And for a time, according to Scripture, the diabolical insanity perpetrated by Satan against mankind will prevail. However, we are also encouraged by the Scriptures that Christ will return, that evil will be brought to an end, that Satan's ultimate ruin will be the lake of hell-fire forever. And those who are the called, chosen, and faithful will be with Christ for eternity.

TP-149	POPULATION CONTROL	\$24.00
Four one-hour (cassette) interviews exposing the forces behind world population control — the people who are utilizing abortion, euthanasia, disease and war for their own diabolical ends. Interviewed are: Jacqueline Kasun, Dr. Gordon Edwards, and Samantha Smith. Also a speech by Dr. Stanley Monteith.		
After hearing the documented evidence, you will see through the mammoth falsehoods being spread by many in authority. You will never again fall prey to the lying propaganda so warmly embraced by our modern society.		
TP-151	SECRET SOCIETIES	\$24.00
<i>The King Makers, the Brotherhood of Darkness, Cecil Rhodes' Secret Society</i>		
Dr. Stan Monteith — Four one hour cassettes. Some commentators allege that there is a secret group that controls both major political parties. Could this be true? If so, who is involved, and what is the group's objective? The two tape set, "The Kingmakers" goes into the fraudulent nature of American politics and how the presidential candidates of both parties are really selected. The "Secret Societies" tape exposes the origins and goals of the secret society created by Cecil John Rhodes during the past century.		
TP-148	THE SECRET GOVERNMENT	\$24.00
Four one-hour cassettes. A look into the great tax-exempt foundations, the world financial elite, and their plan to create a worldwide feudalistic state under their control. Features a two-hour recorded interview with Dr. Carroll Quigley, the famous author of <i>Tragedy and Hope</i> and <i>The Anglo-American Establishment</i> . Quigley, a professor at Georgetown University and Bill Clinton's mentor, was the "insider" who revealed too much for the Establishment's comfort. Also includes an hour-long interview with Norman Dodd, Director of Research for the Reece Committee which — in the early 1950s — investigated the activities of the great foundations.
