Restoring Social Virtue & Purity to America

12/96

A Campaign to Restore Social Virtue and Purity to America

A general dissolution of principles and manners will more surely overthrow the liberties of America than the whole force of the common enemy. While the people are virtuous they cannot be subdued; but when once they lose their virtue they will be ready to surrender their liberties to the first external or internal invader.

Samuel Adams, Signer of Declaration of Independence
Founder of the Committee of Correspondence, Congressman

INTRODUCTION: WHY ACTIVATE MOMS?

All of America's once trusted institutions are under the sway of Dr. Alfred Kinsey's bad sex science. Therefore mothers need to act to protect their children in school from this bogus view of sexuality. *RSVP America* will train mothers, school by school, with the information they need to uproot the source authority for today's skyrocketing sexual dysfunctions for the protection of their own children. Dr. Kinsey is that source authority. Kinsey used child molesters, pedophiles, to inform him as to what is "normal" childhood sexuality. *RSVP Mothers* will be trained to identify Kinsey's destructive mandated sex training materials, as well as the organizations and agencies using his fraudulent model of "scientific" human sexuality.

It is costly to mount and sustain an effective and successful campaign. Thus, an appropriate funding mechanism had to be developed to underwrite the outreach and training of mothers. *Playboy's* Hugh Hefner boasted that he widely published Kinsey's "anything goes" view of human sexuality via the "soft" pornographic images in his magazine. The public health data since the 50s clearly show pornography's mythical sexual images have pointed the way to America's present demoralization. Thus, *RSVP* selected the artwork of American artist, Mitchell Tolle, whose work points the way to the restoration of America's social virtue. Through a special arrangement with the artist, *RSVP America* offers to parents a fine gift service catalog for personal and business gift giving which will yield sufficient funds to sustain *RSVP's* important work.

A NETWORK OF SCHOOL MOTHERS COMMITTED TO PROTECTING THEIR CHILDREN

The campaign financial projections are based upon a sample of two states of approximately 1,000 schools, each with 500 School Committees led by an *RSVP Mom*, along with ten other moms comprising the school committee. This School Committee is the most important element in the grass roots *RSVP* campaign network. Five School Committees have a District Coordinator and 10 Districts are managed by a State Regional Director. In a state of 1000 schools, there would be ten Regional Directors working with the State Director. The State Director, the State Steering Committee along with the Regional Directors, with input from the school *RSVP Moms* through the District Coordinators, will implement the overall state's *RSVP* goals, policy and objectives, monitor success and solve problems.

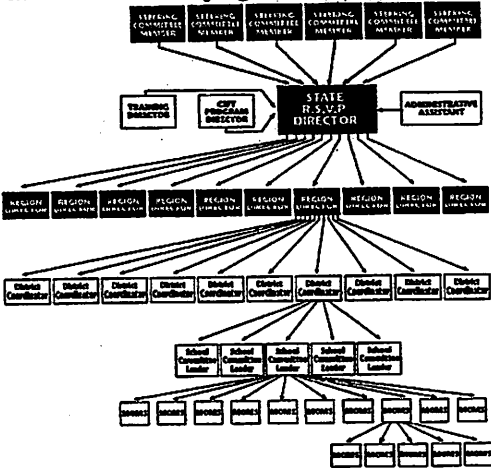

CAMPAIGN RESEARCH & DEVELOPMENT

In the first states selected to test and refine the campaign concept an investigation had been conducted into the effects of Kinsey upon state education, laws and public policy. The Family Life legislation in one state called for marriage and abstinence to be purveyed to the school children and yet the curriculum developed by the state education department mentioned marriage only five times in 250 pages! The mothers briefed on how the law was ignored by state employees were stunned. The information on Kinsey presented to them answered questions they have had for a long time. Mothers were glad to know how Kinsey's criminal and fraudulent research has been used by many in

positions of authority to move America's institutions away from her historic moral standard in family issues, public policies and laws. Most moms were unaware of the source and the extent of the shift in standard of judgment in regarding to human sexuality matters. All believed social virtue in the schools could be restored through their efforts with RSVP and demanded to know what they should do next!

IDENTIFYING SCHOOL MOTHERS AS SCHOOL COMMITTEE LEADERS

R.S.V.P. State Campaign Network

To identify one school committee leader per school, the Regional Director and the State Director will travel in the territory to veterans groups, civic, social and church groups, etc., to identify the School RSVP Committee Leaders. Civic and social organizations will be asked to help identify concerned mothers who are leaders in their community who could serve as potential RSVP committee leaders. The ten member school committee is designed to accomplish the mission of the campaign and manage the activities, information, training and advocacy within their school.

TRAINING OF SCHOOL MOMS

Training of the campaign network occurs in two steps: After the Regional Director and a District Coordinator speak at meetings in churches, veterans, civic and social organizations on how America has gone from *Chastity to Condoms* in one generation and how this shift in standard is harming our school children, the Regional Director will arrange a short introductory training meeting. This preliminary meeting is to recruit mothers as School RSVP Committee leaders who will develop the school organizations of at least ten moms.

At the **Introductory Regional Meeting** the entire *Table 34* video will be shown; mandatory sex training in state schools will be addressed and the mission of the RSVP national and state campaign will be explained, as well as its network and gift program. People recruited from these meetings who wish to participate will be screened and then signed up to serve as School RSVP Committee Leaders in their schools. A Start-Up Packet of materials on Kinsey's fraudulent sexuality will be required for the School Committee Leader in each school. The training materials can include: The first segment of the RSVP Training Manual; *The Children of Table 34 Video*; *Foundations*; *Soft Porn Plays Hardball*; and *Kinsey, Sex and Fraud, The Indoctrination of a People*.

IME ACCREDITATION AND CERTIFICATION TO FORTIFY MOMS

After there is a School RSVP Committee Leader in each of the 50 schools in one of the ten Regions, a full-day training session will be held. Fifty to 250 people, school committee leaders and their school committee members could be in attendance at this meeting. Those finishing this training session will be certified by the Institute for Media Education. There is currently a Kinsey-based sexual pedagogy monopoly in America, but Continuing Education Credits and/or certification from The Institute for Media Education (IME)¹ can be earned by teachers, parents, and others who successfully complete the RSVP training seminars.

Accreditation is critical for Moms and Dads who feel themselves lacking expertise in debating sexologists or teachers with graduate training in these areas of concern. IME President, Judith A. Reisman, Ph.D., a mom and a grandmother led the way for other mothers by successfully

¹ The Institute for Media Education is a non-profit research and education foundation offering training in sexuality studies, problems of science fraud in general and sex science fraud in particular.

carrying out the groundbreaking expose of Kinsey's fraudulent, criminally based "child sexuality" data. Dr. Reisman and education curriculum specialist Dr. Dennis Jarrard designed the *RSVP* training curricula and will oversee training and accreditation.

POST-TRAINING RSVP ACTION MATERIALS

RSVP School Moms training materials for the national campaign will include videos, books, video conferencing and special targeted pamphlets. For example, one pamphlet will explain the School Board's potential financial and legal liability if students are sexually mis-educated, (especially should they contract AIDS or other STD's or become pregnant from sexual activities after *being taught* "safe sex" education or given free condoms.) Federal and State law violations will be documented in all cases. Another pamphlet will outline the dangers of "safe sex" teaching, the true medical data on condom failure, the emotional trauma resulting from abortions, and the horror of venereal disease. Another pamphlet will explain the harm associated with "soft" pornography, although SIECUS, (financially tied to the pornography industry), has recommended the use of pornography in mandated "establishment" school sex training.

RESPONSIBILITIES & ACTIVITIES

School Committee Leaders are responsible for structuring the school committee of ten parents to carry out the school committee functions of publicity, communication, research, student outreach and special projects, etc. The School Committee Leader will compile a talent bank and ask moms to form fax and phone trees. School Committees Leaders are largely responsible for doing what Moms do anyway. She and her committee will be taught how to work with teachers to gather "Essential Elements of Information (EEI)," to find out which authorities are being cited, materials distributed, *and who* is instructing elementary, middle and secondary public, private, parochial schoolchildren about human sexuality. Wherever possible, *RSVP Moms* in the school committees will work with teachers and school authorities and even students. Information on the mandated sexuality programs and related materials used in the school and gathered by the mothers will be forwarded to Dr. Reisman and/or the state and national campaign leaders for evaluation and further clarification.

RECOGNITION FOR SCHOOL MOMS

School Committees will serve in renewable two year cycles. In recognition of their wonderful dedication to restoring social virtue in the schools, mothers will be honored as they go off the school committee and come on to the committee at an annual State *RSVP* banquet and conference. Recognition will be important because as Kinseyan, Ira Reiss, author of *The End of Shame, Shaping Our Next Sexual Revolution*, (1990), and strong advocate for "our next Sexual Revolution" who argues persuasively for "comprehensive sex education from K-12 in public schools and promotes the use of contraceptives, information about abortion, and a pleasure-centered, non-monogamous sexuality,"² Reiss is the past President of SSSS (Society for the Scientific Study of Sex) and SIECUS (Sex Information and Education Council of the US) Board Member, distinguished Lecturer at the Institute for the Advanced Study of Human Sexuality, talked of the value of one person and the battle lines first drawn by Kinsey in 1948:

To build [sexual] pluralism we must firmly root out the narrow thinking about sex that exists in all of our basic institutions family, political, economic, religious and educational. We need to change our whole basic social institutional structure.... We don't need a majority of the nation in order to make significant changes in our society. We need only a small percentage of the population who are dedicated to promoting all of our sexual rights

RSVP America agrees. It will take only a few "dedicated" ladies to
