Crafting “Gay” Children

AN INQUIRY INTO THE ABUSE OF VULNERABLE CHILDREN VIA ESTABLISHMENT MEDIA & THE SCHOOLROOM¹

Gay liberationists in general, and boy-lovers in particular, should know Kinsey’s work and hold it dear.... implicit in Kinsey is the struggle we fight today.¹

North American Man/Boy Love Association (NAMBLA) 1981

This paper will address three related issues. First, a brief comment on the role of mainstream media in shaping public opinion by suppressing truth in the service of special sexual interests. Second, the history of Alfred Kinsey’s role in promoting the current advances in pedophilia and homosexuality. And finally, the schoolroom initiation of children into sex, especially “gay” sex, as feeding the “[t]ightly run organizations” that traffic in roughly half a million boy prostitutes.²

Kinsey’s carefully planned publicity program was designed to create an international mass media sensation which would appear to be spontaneous and unanticipated.³

Judith A. Reisman, Kinsey, Crimes & Consequences (1998)

Dr. Reisman’s study supports the conclusion that Alfred Kinsey’s research was contrived, ideologically driven and misleading. Any judge, legislator or other public official who gives credence to that research is guilty of malpractice and dereliction of duty.

Charles E. Rice, Professor of Law, Notre Dame Law School, Indiana⁴

Gay men view these boys as recreational toys to be used. I have heard many stories of HIV positive men having unprotected sex with boys. They don’t think it matters.⁵

Homosexual activist in The Advocate (March 1992).

PROJECT 10, named after Kinsey’s (1948) estimate that 10% of the population is exclusively homosexual, originally envisioned as an in-school counseling program.... has become a district-wide and nation-wide forum for the articulation of the needs of lesbian, gay, and bisexual teenagers.⁶

Virginia Uribe, Coming Out of the Classroom Closet (1991).

¹ **Cautionary Note:** *This monograph addresses the major taboo in homosexual criticism.* Based on empirical and historical documentation, the author argues that seduction of children and youths for personal and political purposes is critical to homosexual advancement. Recruitment of children into heterosexual and homosexual promiscuity, on record as always a serious problem, is now so visibly organized as to pose a major threat to all children and society (as Feldman summarized, “these kids are our future” and we need to “invest” in them, see page 11). Those adverse to candid debate and verifiable data authenticating these especially grim homosexual harms may, of course, avoid reading this paper.

I. PAUSING TO ADDRESS HOMOSEXUALITY AND FREE SPEECH

In his famous June 1978 Harvard commencement address Aleksander Solzhenitsyn indicted America's mass media for the betrayal of its office:

The press can both stimulate public opinion and miseducate it... The press has become the greatest power within the Western countries, more powerful than the legislature, the executive, and judiciary. One would then like to ask: By what law has it been elected and to whom is it responsible?⁷

Based on its free speech privileges, the American press is charged with providing a "window to the world" by which the polity may locate the source of a social malaise, evaluate the problem and correct it. But, if establishment media—news and entertainment—broadcast disinformation and conceal adverse information about a matter or malaise, then the Fourth Estate (the mass media) becomes an unelected fifth column directing law and public policy. Especially now, when the press reports that the annual budgets of gay and lesbian charities and social service agencies amount to about \$100 million, these "charities" and "agencies" are in a position to dramatically recraft the national psyche and thereby national conduct. This author seeks to break through the mass media's conspiracy of silence.

Rogers' "Theory of Diffusion of Innovation": Philip Kotler's classic work, *Marketing Management*, documents how controlled news is used to "both stimulate public opinion and miseducate" it. Rogers and Kotler report that in a media campaign, 2½% of our social leaders often sway roughly 13% of the public initially, who later move another 34%, and so on until a majority accept and adapt the proffered product or idea.⁸ This diffusion is visible in the pre-Kinsey 1950s shift from the view of homosexuality as a result of early familial and/or sexual trauma, to the post-Kinsey view of homosexuality as normal and children as "born gay." The shift was sustained by the Fourth Estate, which began by turning a police raid on a boy prostitution hub (the 1969 Stonewall Riots) into a clarion call for freedom. Furthermore, the media has successfully transformed AIDS from what it is—a fatal, infectious disease commonly resulting from violent forms of aberrant promiscuity—into what it is not, a "homophobic" attack on some new version of minority rights.⁹

The effect of the on-going media campaign is exemplified by the eight-year shift from youthful rejection to the acceptance, even practice of homosexuality. A recent "teen poll" conducted by the establishment media teen magazine *Seventeen* claimed that 17% of teens polled in 1991 versus 54% polled in 1999 accept homosexuality as appropriate. *Seventeen* casually noted, "Teens today are likely to experiment: 21%... have fantasized about fooling around with someone of the same sex—and 15% say they have actually done so."¹⁰

As in *Seventeen*, at the same time that establishment media carelessly reports children's homosexual experimentation, it routinely suppresses data on the culture of inter-gay violence—men battered and killed by pickups and prostitutes—although these cases are often reported by the homosexual press itself. Especially hidden by *both* homosexual and establishment media are the data on homosexual violence against children and inter-gay "domestic" battery, discussed in some detail in this monograph.

A recent example was the aggressive media campaign against "hate crimes" provoked by the two heterosexual killers of an adult homosexual, Matthew Shepard, contrasted with the media cover up of the barbaric murder of 13-year-old Jesse Dirkhising (found "bound, gagged... repeatedly raped in a sado-masochistic ritual") by two trusted homosexual friends of the child's mother.¹¹

Similar homosexual child sex murders or inter-gay violence is either briefly noted or ignored by the Fourth Estate. The vicious 1997 rape/murder of 10-year-old Jeffrey Curley was unheard of until the \$200 million law suit filed in May 2000 against NAMBLA by the parents of the dead child, well after two homosexual "lovers" were convicted of the boys' torture and death.¹² Yet knowledge of such violence is critical if parents and the polity are to make informed choices about leaving their children with homosexual acquaintances or authorities.

When "dirty linen" is hidden, public debate is uninformed and distorted. Homosexual authors Island and Letellier attempt to expose inter-gay violence in their book, *Men Who Beat the Men Who Love Them*, estimating that up to "650,000 gay men"¹³ are annually battered, and "a gay man is abused... every 90 seconds."¹⁴ How many of these battered men die at the hands of other homosexuals? Yet Island and Letellier find establishment media and the homosexual media will not print the truth about inter-gay violence. Why? Island and Letellier criticize the homosexual media for hiding inter-gay violence saying,

It would be just plain bad press for gays and... all bad news needs to be suppressed... [G]ay men truly... have a proportionate share of violent individuals in their midst who bash other gay men [and boys] in startlingly high numbers.¹⁵ The gay community needs to recognize that wealthy, white, educated, "politically correct" gay men batter their lovers.¹⁶

Much of the Fourth Estate currently discriminates by employing only bi/homosexuals to cover "sexual orientation" issues, further compromising the public's ability to obtain unbiased reports.¹⁷ In a rare "politically incorrect" media event the popular television drama "ER"¹⁸ showcased inter-gay male battery tolerably common in emergency wards—and as often leading to domestic "homicides."

As homosexual activists have shifted their lobbying efforts to schoolrooms coast-to-coast, outraged parents, neighbor to neighbor, are reporting the radical forms of "pedagogical eros"¹⁹ taught to schoolchildren over the electronic fence of e-mail. In his book on boy prostitution, *For Money or Love*, liberal reporter Robin Lloyd, confirms the admission of Island and Letellier, and says the press suppresses police reports of raids and arrests of adults preying on young boys:

[The police raids] usually go unreported by the press. Both wire services, the Associated Press and the United Press International, file the stories to their clients (newspapers, radio stations, and television stations), but the stories are always preceded with the cautionary "EDITORS" (NOTE NATURE OF THE STORY)." Editors do... and often elect not to use them.²⁰

Gagnon Says Hide Gay Origins. *Absent any biological evidence of homosexuality, "lesbian, gay, and bisexual teenagers" exhibit classical symptoms of childhood trauma (parental violence, alcoholism, sex abuse and/or other dysfunctions). Concerned lest the public become aware of the traumatic histories of most allegedly "gay" youth, National Research Council advisor and Kinsey researcher, John Gagnon, told sex researchers to hide the causes of homosexuality, prefacing his directive with a polite denial:*

The wish of some gay men and lesbians to locate the origins for their desires in ...biology or early experience deserves a respectful response even though I think it to be wrong... Attempts to placate the oppressors will only invite further persecution. The source of freedom in everyday life for gay men and lesbians is continued vigilance and practical political action.²¹

Eager to conceal any causes rooted in bad parenting or early sex abuse which suggest adult responsibility or crime, Kinseyans, have supported by the media, formed groups like PROJECT 10, PFLAG, (Parents and Friends of Lesbians and Gays) and later, GLBT, (Gay, Lesbian, Bisexual And Transgendered) youth. Since historical, cross-cultural, literary and testimonial evidence clearly identifies a homosexual etiology of family disorders, it is understandable that many parents zealously insist their child was "born that way," avoiding the personal blame and public disgrace inherent in having placed their offspring in harm's way. But, how did 20% of America's leaders—largely America's intellectual community—adopt these radical new views on sex and homosexuality?

II. PRE AND POST "KINSEY ERAS"

To answer that question we turn to Alfred C. Kinsey. In 1989 the prestigious National Research Council proclaimed that sex science" can be divided somewhat crudely into the pre-Kinsey and post-Kinsey eras."²² On April 23, 2000 *The New York Times Book Review* celebrated the fact that Indiana University had given America, "the man whose studies started the sex revolution."²³ And, on April 17, 2000, *Salon's* Scott McLemee wrote:

Kinsey's effect on society was profound and enduring. It did not rise and fall with his bestseller status... [but his book became] the manifestoes of sexual revolution and the counterculture.... The history of sex in America falls into two large, unequal, yet clearly defined periods. The first era belonged to the Puritans, the Victorians... This epoch of libidinal prohibition lasted until Jan. 4, 1948. The following day, Professor Alfred C. Kinsey of Indiana published *Sexual Behavior in the Human Male*. Whereupon, as the expression has it, the earth moved.²⁴

True. Since 1948, Kinsey has continually fashioned the American libido. As NAMBLA says, any who would understand the modern theater of "sexual orientation" must "know Kinsey's work," for implicit in it is the struggle for pedophile control of America's children.

Kinsey: The Media Myth. Many Americans born post WWII may not recall the Kinsey team and their reports, *Sexual Behavior in the Human Male* (1948) and *Sexual Behavior in the Human Female* (1953). A vast and meticulously orchestrated media-relations campaign made Kinsey a household name, heralded as a folk hero in over 70 % of the nation's press.²⁵ *Life*, *Look*, *Time* and every other major mainstream magazine promoted his bold sex "findings" as heroic scientific truth.²⁶

Indiana University had set the stage by posing zoologist Kinsey as a conservative Republican academic, a family man, who serendipitously stumbled onto sex research only to discover (surprise!) that while Americans *pretended* to be virtuous, virginal, monogamous and faithfully heterosexual, they were really hypocritical, promiscuous, closeted bi/homosexual adventurers.

The Reality: The Kinsey team—not America's parents—played false. Kinsey's most recent admiring biographers confessed that he was a sadistic bi/homosexual who seduced his male students and coerced his wife, his staff and their wives to perform for and with him in illegal pornographic films made in the family attic.²⁷

Kinsey and his mates—Wardell Pomeroy, Clyde Martin and Paul Gebhard—had "front" marriages, which concealed their strategies to supplant what they saw as a narrow procreational Judeo/Christian era with a promiscuous "anything goes" bi/gay pedophile paradise.²⁸ An early adherent and advocate of masturbation, Kinsey suffered an untimely

death due, at least in part, to "orchitis," a lethal infection in his testicles that followed years of sadistic, orgiastic "self-abuse."²⁹ While Kinsey didn't go blind, the data strongly suggest that his brutal, repetitive self abuse certainly contributed to his early death.

The Research Methodology: Kinsey's closeted team 1) "forced" subjects to give the desired answers to their sex questions,³⁰ 2) secretly trashed three-quarters of their research data,³¹ and 3) based their claims about normal males on a roughly 86% aberrant male population including 200 sexual psychopaths, 1,400 sex offenders and hundreds each of prisoners, male prostitutes and promiscuous homosexuals.³² Moreover, so few normal women would talk to them that the Kinsey team labeled women who lived over a year with a man "married," reclassifying data on prostitutes and other unconventional women as "Susie Homemaker."³³

The Children: Kinsey solicited and encouraged pedophiles—at home and abroad—to sexually violate from 317 to 2,035 infants and children for his alleged data on normal "child sexuality."³⁴ Many of the crimes against children (oral and anal sodomy, genital intercourse and manual abuse) committed for Kinsey's data are quantified in his own graphs and charts.³⁵

For example, "Table 34" on page 181 of Kinsey's *Male* volume, claims to be a "scientific" record of "multiple orgasm in pre-adolescent males." Here, infants as young as 5 months are timed with a stop watch for "orgasm" by Kinsey's "technically trained" aides, with one 4-year-old, tested 24-hours around the clock for an alleged 26 orgasms.³⁶ These child "data" are commonly quoted by sex educators, pedophiles and their advocates to prove children's innate need for sexual satisfaction. The claim of a legitimate need by children for a satisfactory sexual life results ultimately in the teaching of "safe sex" inclusive of all forms of "sexual orientation," homosexual, heterosexual, bisexual, etc., via school sex education.³⁷

The Conspiracy of Silence. How could a dry, scientific tome be hyped globally to bestseller status and draw no questions from skeptical reporters or scientists as to where children for human sexual experiments were obtained when the nation was still reeling from Nuremberg? In his *Male* volume, Kinsey defined "screaming," "writhing in pain," "fainting," "convulsions" etc.,³⁸ as "orgasms" for infants too young to speak. *Who* sexually tested these infants and children?

Where were the parents? Among thousands of international reviews of the Kinsey Reports, no one asked these questions of the man who—as Gore Vidal declared—was "the most famous man for a decade,"³⁹ and who, more specifically for this writing, is the man the homosexual and pedophile movement thanks for their advance.⁴⁰

Law and The Social Sciences. *Westlaw* law review journal articles (1982-2000) cite Kinsey positively roughly 650 times from hate crimes and homosexual marriage to child custody and rape. The *Social Science and Science Citation Indices* reference Kinsey roughly 6,000 times over this same period. On the evidence, Kinsey is far and away the most influential sex scientist in the law.⁴¹ Fully 100% of the sex science citations in the original 1955 American Law Institute's "Model Penal Code" cite Kinsey's data—alive today in courts and legislatures.

Slandering Dissenters. His critics were largely ignored and/or slandered by Kinsey and establishment media, as sexually repressed, ignorantly religious, mean spirited, unscientific, and backward. Continued media applause prized Kinsey as the prophet of the sexual revolution.

In my book on the subject,⁴² I argue that America's growing libidinous pathologies—taught as "safe" and "safer" sex in primary, secondary and graduate schools and reflected in

our fine and popular arts, the press, law and public policy—largely mirror the documented⁴³ sexual psychopathologies of the Kinsey team itself.⁴⁴

This "free sex" movement coarsened the populace by demoting sex from its rarified, idealistic marital pedestal and private expression into public display, discourse and performance. One of the expressions of Kinsey's "grand scheme" has been the revival of the traffic in both adult and child heterosexual and homosexual prostitution and pornography.

III. IMPLEMENTING THE KINSEY DATA

Post-Kinsey, Hefner And Hay Launch The Sex Industry: "The White Slave Trade," sex traffic in women and children, was finally crippled in 1912 by the Mann Act, based on the realization that children are asexual and deserving of governmental protection from adult sexual predators. Child prostitution centers closed everywhere, and venereally infected and dying children were nursed and buried by women's church groups.

However, following Kinsey's sexual revolution, the child sex industry rose again,⁴⁵ carried forward by two Kinsey acolytes. As a virginal college youth, Hugh Hefner, Kinsey's first disciple, read and believed Kinsey and was sexually radicalized. Hefner emerged as Kinsey's "pamphleteer" aiming to legitimize "adult" (and, more subtly, *child*) pornography.⁴⁶

The second disciple, Harry Hay, a bisexual communist (molested as a boy by a man)⁴⁷ read Kinsey's claim that 10% of men are homosexual, left his wife and children and began the campaign to legitimize sodomy. Hay elevated sodomy from a defining pathological and illegal act to a state of being. Homosexuals, Hay said, are an oppressed "minority"⁴⁸ deserving special or civil rights—a call to arms which spawned the "gay" rights movement. A largely unacknowledged result of this drive by approximately 2% of the American population, has been the exploding traffic in male child pornography and prostitution.⁴⁹

Kinsey's anthem of sexual promiscuity without consequences would be played out over the decades. For Kinsey hid his data on the disastrous consequences of "public sex"—prostitution, public sexual solicitations, sodomy and obscenity, venereal disease, "illegitimacy," abortion, drug abuse, suicide, rape, homicide, child sexual abuse and a myriad of other social disorders.

Abandoning "Public Morals:" Absent bad consequences, Kinsey, Hefner and Hay said, laws restricting public or private sexual activity were obsolete. After 1948, pressured by media, scholars and a legal profession which parroted the Rockefeller-funded Kinsey, the once omnipresent "vice squads" rapidly disappeared.⁵⁰ The Kinsey fantasy of promiscuous, public-sex-without-consequences fueled promiscuity as well as two dozen new STD's, including the lethal AIDS. Kinsey admirer and Princeton historian David Allyn explained that,

[Kinsey undermined] the very legitimacy of public morality itself... In the post-WWII era, experts abandoned the concept of "public morals," a concept which had underpinned the social control of American sexuality from the 1870's onward.... Kinsey's... silence when it came to questions of public sexuality... served Kinsey's deregulatory ends.⁵¹ (Emphasis added.)

Normalizing Sodomy: Post-Kinsey, if sodomy and public sex were normal and harmless, it was logical for police and press to ignore homosexual "cruising" of public parks, baths, rest rooms and other public spaces. It was also logical to ignore sex acts in heterosexual and homosexual "adult" pornography stores, films and other public

entertainments. "Consent" became the single moral imperative surrounding sexual conduct for everyone.⁵²

Psychiatry Follows Kinsey: Pre-Kinsey say the authors in *The International Journal of Neuropsychiatric Medicine*, psychiatry judged prostitution, "bi/homosexuality, sadism, masochism, promiscuity and compulsive masturbation as unhealthy." But, Kinsey and his followers taught clinicians that "sexual hypofunction...is natural, healthy, and pleasurable. Mastery of masturbation is now seen as an important first lesson for the patient or couple undergoing sex therapy."⁵³ Absent concepts of "sin" and immorality, psychiatry and psychology rely on "sex scientists" to inform the professions on sexuality. Thus, following the Kinsey canon of sodomy is normal and natural, the American Psychiatric Association (APA) determined homosexuality, sadism and pedophilia can also be normal and unproblematic.⁵⁴

Children As Sexual From Birth: Kinsey's pedophile data,⁵⁵ claiming that children are "sexual from birth," are carved into the fabric of science, pedagogy and law. This "fact" is still taught to psychiatrists, pediatricians, psychologists, sexologists, pedagogues, law and justice professionals, media moguls, theologians, public policy makers, and other movers and shakers worldwide.

"Juvenile Sexual Entitlement": Kinsey's pedophile data "proving" infants and children capable and deserving of orgasm from birth and homosexuality and sodomy as normal have justified teaching "sexual diversity," "sexual orientation" from grade school onward. There is no sexual canon by any other recognized human development theorist (i.e., Freud, Erickson, Piaget, Kohlberg, Bandura, Rogers, Maslow, Skinner, Mead Gessll, or Havinghurst) which offered data on, or claimed the need for "sexual satisfaction" or sexual pleasure for children or youths. With Bible and biology deserted as models for restricting vulgar, coarse or dangerous sexual activity, the pedagogical vacuum was filled by the Kinsey advocates of what could reasonably be called, "juvenile sexual entitlement."

With childbirth the only undesirable sexual outcome, and sodomy and masturbation (alone, in dyads or groups) taught as harmless forms of contraception and part of a well-rounded sexual repertoire, schoolchildren could be, and have been, smoothly socialized into a promiscuous, bi/homosexual culture.

IV. A VULNERABLE POOL OF SEXUALLY MOLESTED CHILDREN

Between 17-25% of Boys Sexually Molested: In their FBI Report on "Child Pornography and Sex Rings," Lanning and Burgess (1984) regard "one in six" sexually abused boys as underreported:

The numbers for male victimization are more hidden, perhaps because boys are reluctant to admit to being victimized. However, clinical data are increasingly suggesting that boys may be at equal risk for sexual victimization since they are the preferred target of habitual pedophiles and victims of child sex rings.⁵⁶

In their comparison study of *The Advocate*, (the premier homosexual periodical) and *The Washingtonian*, (a preeminent "heterosexual" periodical) with equivalent reader demographics (liberal, affluent, largely white, educated, etc.) Reisman & Johnson⁵⁷ analyzed heterosexual versus homosexual information about pedophilia in the "In Search Of" advertisements and attendant research:

- 0.45% *Washingtonian* heterosexual bachelors ($n=2,885$) "in search of/offering" man-girl sex.
- 15% *Advocate* homosexual bachelors ($n=7,407$) "in search of/offering" man-boy sex.
- 49% "Gay" male biographies ($n=166$) reporting sex with boys.⁵⁸
- 41% "Gay" travel in foreign countries ($n=139$) rating laws on sex with boys.⁵⁹

- 21% of *Advocate* readers (n=2,500) reporting adult molestation before age 15.⁶⁰
- 73% of "gay" men reporting sex with boys 16-19 or younger.⁶¹
- 100 boys a year, plus, reporting molestation by a Boy Scout Leader.⁶²
- 150 boy "gay" victims versus 20 girl "straight" victims per child molester (Abel, see below).
- 153 homosexual offenders assaulting 22,981 boys (Abel, see below).
- 224 heterosexual offenders assaulting 4,435 girls (Abel, see below).

150 Boy Versus 20 Girl Victims Per Child Molester:

Figure 1: Abel's Child Abuse Data

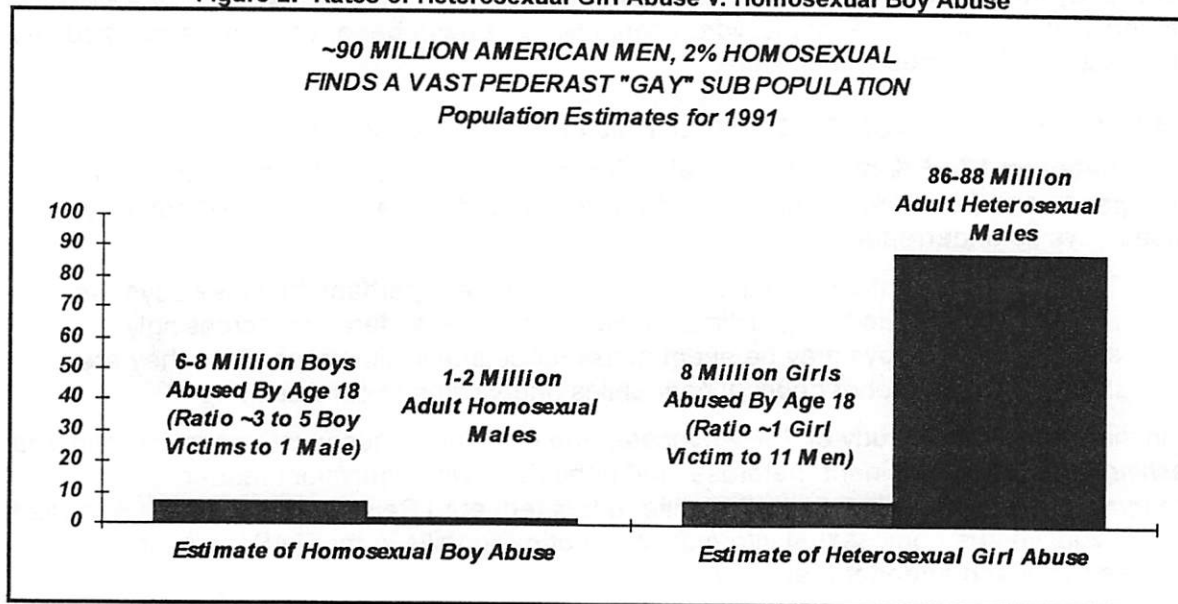

Psychologist Eugene Abel reported homosexuals: "sexually molest young boys with an incidence that is occurring from five times greater that the molestation of girls.. [

"N]onincarcerated child molesters admitted to from 23.4 to 281.7 acts per offender....whose targets were males" (Abel et. al., at 32-50. 44, 48).⁶³

The rate of homosexual versus heterosexual child sexual abuse is staggering. Abel's data of **150.2 boys** abused per male homosexual offender finds no equal (yet) in heterosexual violations of **19.8 girls**.⁶⁴

Figure 2: Here, the 1991, *US Population, Statistical Abstracts* data are compared to the accepted child sex abuse data (1 in 4 girl victims and 1 in 6-8 boy victims) and accepted estimates of the homosexual and heterosexual populations.

Figure 2: Rates of Heterosexual Girl Abuse v. Homosexual Boy Abuse

The homosexual population has been internationally identified in France, England and the USA as between 1% and 3% (in a range of 1.5% to 2%).⁶⁵ Hard data confirm

international research and law enforcement reports—the 2% homosexual population harbors a vast pederast boy abuse subculture.

While *statistically* correct, since 100% of homosexual males *do not* sexually assault boys, a vast "gay" subset commits multiple, repeated child sex offenses. It is assumed that much child sexual abuse goes unreported and some unsubstantiated. Hence, the following statistics are to be viewed with caution as reflecting the best available current data.

Of 90 million adult males:

- ~9% of heterosexual men (~86-88 million) victimize 8 million (25%) girls.⁶⁶
- ~100%+ homosexual men (~2 million) victimize 6 to 8 million (17% to 24%) boys.⁶⁷
- ~3 to 4.5 boys are victimized per homosexual male.⁶⁸
- ~1 girl is victimized per 11 heterosexual males.⁶⁹
- ~50% of white gays had 500 plus, sexual partners, the rest averaged 100-500.⁷⁰
- ~25% white homosexuals admitted *sex with boys, "sixteen years old or younger."*⁷¹
- ~50%+ of AIDS victims (*n*=279) had oral or anal sex with an adult male by age 16.⁷²
- ~20% of AIDS victims (*n*=279) had sex with an adult male by age 10 (1981-82).⁷³
- ~21% *Advocate* respondents (*n*=2,500) "were sexually abused by an adult by age 15."⁷⁴

The *Advocate* admitted that almost ten thousand vulnerable, lonely boys, discussed later, initiated into homosexual acts allegedly via "consensual" sodomy, are now nonconsensual AIDS statistics.⁷⁵ Due to better medications, says the executive director of an AIDS resource center, "[d]eaths may be down, but infections are not." Why not? "Young men think of themselves as immortal" explains another AIDS advisor. Oral sodomy, the standard homosexual act was found to be "the lone risk factor (i.e. likely cause) in 8 % of HIV infections" while anal sodomy "soared by more than 40 %" in one year, 1997-98," and in Kentucky, "800 teen-agers (in many cases an entire high school) will be contracting HIV every year."⁷⁶ While many consider the "new" face of AIDS—that is young boys infecting young girls—to be a major problem, back in 1989 homosexual leaders saw the problem quite differently.

V. THE PROBLEM? BOYS AVOIDING "GAYS" IN AN ERA OF AIDS

The Solution? Institutionalize "Socialization" Techniques: After the advent of AIDS, academic homosexual leaders worried that boys were avoiding "gay" men. San Francisco State University Sexuality Professor Gilbert Herdt explained that in the mid 1980s homosexual leaders determined they must access schools, scouts and other child "institutions" in order to reverse a growing youthful resistance to homosexuality. School newspaper ads seeking "gay" youths⁷⁷ and proclaiming a battle against gay "suicide" and associated "hate" crimes began to appear regularly. Herdt explained why homosexual recruitment efforts increased:

We had not foreseen that....gay youth would also have to contend with the new horrors of AIDS [and that]...*teenage gays and lesbians would shun older gays as role models or even as friends*⁷⁸...[To meet this challenge, said Herdt] *only now has gay culture begun to institutionalize "socialization" techniques for the transmission of its cultural knowledge to a younger generation*⁷⁹... [as] local "gay" movements *provide their own infrastructural support for the coming out process in teens.*⁸⁰ (Emphasis added)

Douglas Feldman, a medical anthropologist claimed, "[T]hese kids are our [the gay community's] future and we must invest in them."⁸¹ Yet, he adds that gay and lesbian organizations discourage having "gay" boys tested for HIV.⁸² Why? "*Teenagers tend to be*

very susceptible to sexually transmitted diseases,"⁸³ observed Feldman. In any event, Feldman says these boys "have about a one in four chance of developing AIDS in approximately 5 years."⁸⁴

How to counteract this unforeseen boyish fear of homosexual sex? Methods for youthful indoctrination were proposed in homosexual meetings, discussions, debates and conferences. Methods of socialization into "gay cultural values" "investing" in "these kids" were subsequently developed and implemented. The victim-minority propaganda techniques recommended in Kirk and Madsen's, *After The Ball* were largely followed.

ONE TEENAGER IN 10

Sexuality luminaries like the editor of *Gay and Lesbian Youth*, Gilbert Herdt, define adult homosexuals as "coaches" and "guides," who help children overcome their heterosexual victim status by "coming out" into homosexuality. Protected by federal and state law, homosexual "guides" teaching "tolerance," "sexual diversity" and such, frighten susceptible child audiences with Kinsey's "scientific" claim that, "at least one in ten of you are gay." Objectors are labeled "homophobic" fascists. Supporters are rewarded with love, approval and inspiring encouragement to be "gay and proud."⁸⁵

In an era of pandemic child sexual abuse and pedophile predators—despite the mortality of AIDS—sexual license is regularly proffered in classrooms by allegedly platonic pedagogues who claim to harbor no libidinous yearnings for their charges. Lesbian teacher, Virginia Uribe began the current practice of recruiting children into homosexuality via the classroom:

PROJECT 10, named after Kinsey's (1948) estimate that 10% of the population is exclusively homosexual...has become a district-wide and nation-wide forum for...lesbian, gay, and bisexual teenagers.⁸⁶

But, the miseducation and entrapment of children under national programs like "PROJECT 10" continues where Kinsey left off. Fully 38% of the short stories in *ONE TEENAGER IN 10*, (the standard, sexually-explicit text commonly given to PROJECT 10 initiates) celebrated child-adult sexual activity. One story begins, "I have been a lesbian since I was twelve. I had known my dance teacher for three years before she brought me out."⁸⁷ (See part XI on SESAME for data on teacher predators.)

Further on you will hear a homosexual activist proposing methods to subvert parents (who fear their children will be seduced into homosexuality) ask "where to get them?" That challenge has been answered. Child "initiates" are increasingly recruited via public, private and parochial schools; programs, films, lectures, courses, productions and the like, in state-sponsored, consciousness raising programs like the following three.

NEW YORK SCHOOLS: In 1991 the AIDS Program Services, New York City Department of Health published and distributed, "A Teenager's Bill Of Rights" to New York schoolchildren. The pamphlet, endorsed by a series of credible organizations, tells the readers, "I have the right to decide whether to have sex and who to have it with" (which is illegal), with no reference to parents, age of consent or statutory rape. The following tender, romantic directions grace an illustration of "How to use a condom." Children should use condoms in,

vaginal sex (penis into a woman's vagina), oral sex (penis into the mouth) and anal sex (penis into the butt). Use a dental dam....or plastic food wrap

for oral sex... Hold it over her vagina to keep from getting her fluids in your mouth."⁸⁸ (emphasis added).

Charming indeed.

MINNESOTA SCHOOLS: The Minnesota Department of Education in its booklet "Alone No More: Developing a School Support System for Gay, Lesbian and Bisexual Youth," stands on Kinsey's false, "full continuum of sexual orientation." Denying the well-known sexual trauma inherent in the initiation of lonely and isolated children into early sex, and the predictable pattern of sexual disease and even death from homosexual conduct, the twin myths of condom safety and "informed consent" have become the sex educator's fetish. School personnel are warned that they must adhere to the new sexuality dogma or be labeled homophobes, subject to serious disciplinary action.⁸⁹

MASSACHUSETTS SCHOOLS: Massachusetts provides homosexual initiates via the school system. Department of Education employees are reported as "describing the pleasures of homosexual sex to a group of high school students at a state-sponsored workshop, March 25, 2000." Homosexual lecturers described the fun of "fisting," (putting ones fist and arm into another's rectum) in libidinous, pornographic detail. The following is censored for this monograph. Full quotations appear in *The Massachusetts News*.

[It's] an experience of letting somebody into your body that you want to be that close and intimate with...[and] to put you into an exploratory mode."⁹⁰

[Organized by] The Commission for Gay and Lesbian Youth, made up of homosexual activists from across the state, since 1992 the Commission [for Gay and Lesbian Youth] has used the safe schools mantra and state money to persuade over 180 schools in Massachusetts to accept the [Gay-Straight Alliance (GSA)] clubs and their activities. Parents and others who offer any criticism of the programs are regularly accused of homophobia and endangering students' safety.⁹¹

While *scientifically, biologically, there are no "gay" youth*, society is experiencing a major cultural surge in young bi/homosexuals. Subsequent increases in disease and in deaths of youth from AIDS will follow.

VI. UNNATURAL CONDUCT REQUIRES "RECRUITERS"—"WHERE TO GET THEM"?

The following strategies for crafting "gay" children reveal homosexuality to be so *unnatural* that it requires vigilant and organized adult bribery and wooing which rival such successful recruitment techniques as those of the United States Marines. Children, (labeled "initiates" as in prostitution or religion) are weaned from their "old fashioned" parents, "first into a self-affirming semisecret group, then by collective socialization into a "gay" cultural system"⁹²—a form of cult. Homosexual advocate, Frederick Lynch spells this out in his study, "The Role of Adult Advisors" in Gilbert Herdt's anthology, *Gay Culture in America*.⁹³ *Hundreds of homosexual activists who "range in age from twenty-three to the late forties,"*⁹⁴ "aid" young initiates:

[W]hat has not been brought out fully in some other coming out studies is the role of guide, teacher, or "helping hand" in either the signification state, the coming-out-stage, or both.... the often benign and helpful role that older, more experienced homosexual men play with regard to younger [males].⁹⁵ (Emphasis added).

Answering the Question of "Where To Get Them"? In their New York University Press classic, *Lavender Culture*, (1978, revised 1994) authors Jay and Young address "Gay

Youth and the Question of Consent." I quote at length from this prestigious homosexual political manifesto, which candidly describes the organized gay campaign to recruit children. The homosexual movement has long advocated ending age of consent laws.⁹⁶ Shocked that the "gay" youth group he guides did not fully favor eliminating age of consent laws, Gerald Hannon, says the boys will learn better soon:

Why is sexual childhood necessary? By that I mean why is it necessary to maintain the myth that children are *not* sexual beings? It is maintained, after all, in the face of rather massive evidence to the contrary. *Infants in their cribs have orgasms—Kinsey documented them in babies less than a year old.*⁹⁷ ...[T]he very concept of childhood is somewhat of a fabrication....

Simply being young does not endow you with a perspective on social change. *That has to be learned. Consciousness-raising is crucial...* And if the Gay Youth Group isn't prepared quite yet to demand an abolition to age-of-consent laws, that's all right. But it's one of the things they're preparing for...⁹⁸ [sic]

During the recent gay conference in Toronto, the matter of age-of-consent laws surfaced for reconsideration. Their abolition is one of the demands of the National Gay Rights Coalition (NGRC)... *its contingent should contain a few teenagers... The question is where to get them. The answer, again, is to proselytize.* At present, we do not have organizations that are chock-a-block full of young people... *To attract young people to the gay movement in large numbers should be the challenge to the next phase of the movement.* It is a challenge we have set ourselves... (Emphasis added)⁹⁹

"Adult Advisors, In Their Twenties And Thirties Are Around": As a result of such cult proselytizing in nationwide schools, many homosexual groups are now "chock-a-block full of young people." "Adult advisors" also answer the challenge of what Hannon called the next phase: "to attract young people to the gay movement in large numbers." Child "initiates" are courted; given a pseudo-home and family, welcomed, wooed, held and embraced, most to die too soon. Says Herdt,

[T]he adult advisors, in their twenties and thirties are around.... The adolescent newcomer's reception is also unexpectedly warm, remarkably praising and positive, for advisers make every effort to acknowledge the courage of "new people" in joining the group... Each person is loudly applauded.... *all "new people," those who have come for four Saturdays or less, are ushered into a smaller separate room, where they huddle with one or two advisors as an isolate...*¹⁰⁰

They laugh at "straights," derided as "breeders,"¹⁰¹ share clothes, are loaned money, have "fun with friends, and adult-supervised learning" until:

*[their] seclusion past, they enter the larger Horizons' group as public initiates.... Their feeling of belonging makes the heterosexual conventions they must obey at home, school, or work seem unreal, as if they belong to another time and place... Parents are a constant source of exasperation and amusement.*¹⁰² (Emphasis added)

Children's past values of family and nation are treated with contempt and ridiculed as narrow-minded and shallow.

Teaching Sex As Recruiting. Cults commonly separate and isolate children from their parents and family members, those who might reveal to them the harm of their new

"friends." Protective adults must attend to the "gay" press proclamation that "the [erotic] love between men and boys is at the foundation of homosexuality."¹⁰³ Herdt, editor of *Gay and Lesbian Youth*, agreed. He explained that laws against adult sex with children are irrelevant, citing a female psychologist's view that as culture shapes behavior, "age itself becomes an 'empty' variable."¹⁰⁴

Herdt articulated the homosexual movement's call to eliminate the words "child or childhood"¹⁰⁵ from the vocabulary in *The Journal of Paedophilia*, while another homosexual academic notes some, "small boys are made into big strong men through pederasty...*Aspiring initiates* firmly believe this."¹⁰⁶ (Emphasis added).

Role of "Coaches." Lynch says, "Indeed, in this study five subjects [boys] were taken to bars or otherwise initiated into the gay subculture by men who were either the same age or older." Writing in *After the Ball*, gay rights strategists Kirk and Madsen are candid about what commonly happens to boys in "gay bars" with "men" the "same age or older" than a teenage boy.

[U]nless we have a young, handsome face and tight body, and dress in fashionable clothing, the minute we step through the door of a gay bar we learn who the real queer bashers are: us... Every year, the ideals of countless naïve, fresh-faced youths are—metaphorically, if not literally—gang-raped in the bars by older, more cynical predators... Wanting to retrieve *something* from the ruin of their hopes... sooner or later, there they are—at the Greyhound bus station, waiting to greet the next busload of farm boys from Peoria.... One very young New York City boy, homosexually active since puberty, spent his entire sixteenth birthday riding trains through the city and weeping for his lost youth.¹⁰⁷

If taking boys into gay bars (commonly seen as a crime) where men pick up the youngsters for quickie sex is "benign," what does Lynch mean by, "otherwise initiated" into "the gay subculture," a new form of cult.

The Induction Process: 1) "Sensitization," 2) "Signification," and 3) "Coming Out": The "gay" child requires sustained contact with one or more homosexual "coaches" to establish the child's "sexual identity as a homosexual," – to facilitate "the process of coming out."¹⁰⁸ A careful reading of these "gay" position papers on youth identifies both unambiguous seduction and the absence of any candid admissions of the massive, organized boy prostitution traffic. For such adult "guides" and "advisors" as often as not, seek profit from using and selling the boys' sexual favors. The critical reader—keeping the boy prostitution traffic in mind—ponders the successful initiations which follow Lynch's three-stage initiation process:

- First, is the "sensitization" stage—a same-sex experience in "childhood or adolescence."¹⁰⁹ (Here Lynch documents early sexual trauma as normally causal in a homosexual outcome.)
- Second, is the "signification" stage—when children wonder about their heterosexuality "in their late teens or... somewhat earlier—usually *by reading about homosexuality*." (A regular occurrence now in classroom activity and via establishment media.) [Emphasis added].¹¹⁰
- Third is the "coming out" stage (commonly at that gay bar where benign "advisors" bring their boys).

"The Role of Helping Hands":¹¹¹ Herdt carelessly notes that many hundreds of homosexual "volunteers" who "range in age from twenty-three to the late forties"¹¹² act as "adult advisors" for these children. And, sociologist Fredrick Lynch adds,

[W]hat has not been brought out fully in some other coming out studies is the role of guide, teacher, or "helping hand" in either the signification state, the coming-out-stage, or both...the often benign and helpful role that older, more experienced homosexual men play with regard to younger [males].¹¹³

In the last decade there have been several homosexual kidnap-rape-castrations of boys,¹¹⁴ including at least one infamous kidnapping, rape and decapitation in 1981 of little Adam Walsh by two homosexual "lovers."¹¹⁵ Robin Lloyd provides a litany of police cases of boy sex murders. One boy was "picked up by two men...and castrated...Both men said they were homosexual. *The older man worked as a counselor for the Helping Hands Community Center, a gay organization.*"¹¹⁶

In yet another homosexual murder, a man stabbed a boy to death during sex. In a turn of events common to homosexual murders today, a boy, apparently sodomized for years by a "a former social worker," stabbed the elderly man to death,¹¹⁷ — neither story covered by the establishment media.

And, reporting an incident typical of the practice of older boys' often initiating younger children into the affluent homosexual life of pornography and prostitution, Lloyd cites one "gay youth" who fatally stabbed a youngster for rebuffing "the elder's sexual advance."¹¹⁸ Says Lloyd, "Stories of violence like these are commonplace" in the "gay" world,¹¹⁹ but few are reported by the establishment media.

GLASS Board Of Directors, Volunteers, Staff Sexually Assault Their Child Wards. A small press item noted that the major "gay youth" counseling agency, "Gay and Lesbian Adolescent Social Services" (GLASS), routinely abused children in their "five group homes." The group's license was "put on probation for five years." The *Washington Times* reported:

that staff members, members of the GLASS board of directors, and volunteers sexually abused or molested children. A night supervisor was accused of sodomy and threatening children, while a volunteer gave children dildos and made pornographic magazines.¹²⁰

The brazen savagery toward these children suggests that this kind of conduct may be common for those who "counsel" with "gay youth." The GLASS director, staff and volunteers believed their own Kinseyan propaganda, that children are sexual from birth and that "gay" children are unharmed by perverse sex with adults. In a similar case of "social workers" abusing needy children, a powerful black "civil-rights leader who founded a non-profit agency to help poor youths" Ron Berry, was recently convicted of child abuse after three decades of sodomizing scores of boys in his care in the Mexico City Government Program in Lexington, Kentucky.¹²¹ The very tenacious black attorney, Gayle Slaughter, responsible for obtaining the evidence which led to Berry's conviction stated:

[C]hild sex abuse is a problem of global proportions....primarily because of fraudulent data used by the late Dr. Alfred C. Kinsey... put[ting] children... at great risk for sex abuse. Some European communities have lowered the age of consent to 12 years... [T]raining manuals for law enforcement agencies say that whenever one pedophile is uncovered in a community, there are usually other pedophiles present there.¹²²

One... testimony...disclosed allegations of an overnight out-of-state trip where a bus load of homosexuals were granted access to a dormitory of Lexington black teen males [where they engaged in] ongoing harassment through sexual verbiage, which intimidated both male and female teens.¹²³

The Franklin Cover-Up: Child Abuse, Satanism, and Murder in Nebraska, by former State Senator John DeCamp, documents another massive, largely homosexual child sex ring stretching from Lincoln, Nebraska to federal legislators in Washington, D.C.¹²⁴

The Arizona Republic Phoenix cites a gym teacher given eighty-eight years for abusing at least five boys. The jury apparently disagreed with his attorney who said research shows molested children often have no ill effects. *The Seattle Post-Intelligence Reporter* cited a local Boy Scout volunteer convicted on "several counts of child molestation" of 12-year-old boys,¹²⁵ and so on and on and on. Unfortunately, while many of these children have run away from distant, hostile or even brutal parents, on the evidence, with exceptions, children are safer even with such families than with lonely, sexually unstable and exploitive adults.

Adult "Guides," and "Teachers." On the one hand, it has taken organizational commitment, planning and effort to cultivate and initiate the current crop of homosexual youth. However, on the other hand, homosexuality (bisexuality and transgendered) is the only extant sexuality cult receiving both tax dollars and direct access to school children, with laws protecting "PROJECT 10" trained teachers and with penalties for protesters. The advisor, guide, teacher, or "helping hand," aids recruitment and limits potential escapees during all stages of initiation of children into homosexuality.¹²⁶ Employing the language of cult and ritual, Professor Herdt says adult-led gay youth groups direct the,

*adolescent's entry first into a self-affirming semisecret group, then by collective socialization into a "gay" cultural system ...*¹²⁷ [Men] seclude and protect the youths, furthering their initiation... which socializes them further into the cultural system of the gay community"¹²⁸

These "adolescent" initiates range, Herdt explains, "*from fourteen to just under twenty-one.*"¹²⁹ (Emphasis added) Normal youth structures, like schools, exclude "youths" by age eighteen and restrict children to their same age peer groups to avoid exploitation or domination of younger children. On point, the US Bureau of Justice Statistics Special Report on juvenile criminals states that *nowhere in the national penal system is someone over eighteen years of age identified as "youth."* Only within the allegedly non-libidinous world of homosexual youth recruitment are men redefined as minors past their teen years.

In three States... all offenders age 16 or older are excluded from the juvenile system and handled in adult court. In 10 States... all offenders age 17 or older are automatically proceeded against in adult court. In the remaining 37 States and the District of Columbia, all defendants age 18 or older are processed as adults in criminal court.¹³⁰

Lest we continue to believe in fairies and Peter Pan, in 1997 the BJS reports 4,510 largely male felons, under 18 years old, admitted to State prison for violent offenses, 61% of all admissions (this includes statutory and forcible rape as well as murder).¹³¹ Children being "initiated" by adults or over 18 "youths" are in a very dangerous environment indeed, a fact of which "gay" advocates and recruiters would be well aware.

Again, scientifically, there are no genetically born gay youth. Many school administrators that have initiated "Project 10" and other alleged "gay youth" programs, have done so believing that a) so called "gay" youth commit suicide more than other youth and b)

that these suicides are a result of the lack of acceptance of their gayness rather than the children's traumatic lives which routinely include early sexual abuse.

But, these "advisors" are not the children's parents, and many, as noted, if not most, are on record as selfishly interested in "helping" these boys—in the form of obtaining sexual favors and/or economic rewards. The massive boy prostitution industry, servicing a significant %age of the affluent homosexual community, is prime facie, organized by their elders.

VII. BOY PROSTITUTION—"INTERGAY" HATE CRIMES AGAINST BOYS

"Gay Men View These Boys As Recreational Toys": The post Kinsey era and the rise of homosexuality has brought a exponential increase in both heterosexual and homosexual child pornography and prostitution. Adult sex with "consenting" minors is still statutory rape. Yet, the March 1992 *Advocate* magazine cover story blames boy victims, not their adult male victimizers, for the disease, saying, "Teen Sex: They're Doing it—And AIDS Is Killing Them By the Thousands."¹³²

"Coming Out" Into Boy Prostitution. In 1972 there were 20,000 runaway girls and boys (called "throwaways") in harms way in New York, "43 percent of them...between the age of eleven and fourteen!"¹³³ (Recall that Robin Lloyd documented the press suppression of homosexual abuse and murder of boys in his expose of boy prostitution.) "Boy prostitution... is now surfacing with the growing acceptance of homosexuality."¹³⁴ ... [S]ome New York City high schools students ran... prostitution rings¹³⁵... [while] street pimps recruit and train [boy] runaways."¹³⁶

Introducing Lloyd's book, Senator Birch Bayh, (D-IN), liberal former Chairman of the US Senate Subcommittee to Investigate Juvenile Delinquency, confirmed that Lloyd's data were "frightening in its accuracy,"¹³⁷ about "a hitherto undiscussed facet of the homosexual world."¹³⁸ Says Lloyd:

Perhaps half of the million runaway boys in this country (aged 10 to 16) are peddling their bodies to "chicken hawks"— older men who lust for "chicken" [boys].¹³⁹ ... There are tightly run organizations... geared to provide wealthy clients with both pornography and boys... [T]heir boys will entertain movie stars, prominent athletes politicians, and in some cases, heads of state.¹⁴⁰

Roughly Half A Million Boy Prostitutes: Lloyd's observation that "[b]oy prostitutes in Times Square outnumber female hookers five to one" gives one pause. At 1-2 million "gay" men, (under 2% of the 90 million over 18-male population),¹⁴¹ 500,000 yields one boy victim per 2 or 3 homosexual males—and this does not count seduction in the "normal" boy population. Although few homosexual killings (to date) rival Jeffrey Dahmer's gruesome cannibalization of 17 boys,¹⁴² Lloyd cites the Houston mass murders of at least twenty-seven boys out of three hundred molested by "a homosexual trio of sadists." Lloyd was concerned that press coverage of these rape-murders "would set the gay community back about ten years."¹⁴³ But, while Kinsey's fraudulent data ("10%" of the population is homosexual) are continuously reprinted, the Houston murderers and other sadistic boy sex killings are steadfastly buried.

As noted earlier, while the *homosexual* press often reports adult inter-gay murders, both they and the establishment press avoid covering homosexual assaults and murders of "straight" boys-like Jesse Dirkhising. Short of murder, parents commonly don't prosecute homosexual abusers, fearing "the publicity,"¹⁴⁴ while police often finesse important or affluent predators out of town.¹⁴⁵

Having obtained endorsements from leaders in the homosexual movement,¹⁴⁶ Lloyd still exposes some homosexual child sex rings. Boise, Idaho "sheltered a widespread homosexual underworld that...had preyed on hundreds of teen-age boys."¹⁴⁷

A Wisconsin town quietly suppressed, "a homosexual ring" of about thirty-five closeted men, including prestigious leaders such as a college dean, a hospital president, a Roman Catholic priest, several physicians, a man "hired to teach at a school for mentally retarded children," etc.¹⁴⁸ The "homosexual ring...had enticed and contaminated many small boys as young as eight years old" into sex, with liquor and pornography.¹⁴⁹ Investigator Clifford Lindecker, confirms Lloyd's findings of brutal and "respectable" pederasts fueling a flourishing traffic in boy prostitution.

Boy prostitution...is growing and becoming more obvious as homosexuals come out of the closets and form gay rights groups, and police power is watered down by court decisions friendlier to civil rights than to law enforcement and protection of the public... [B]oys learn that they can earn good money doing something they and their friends have come to accept as normal behavior.¹⁵⁰

The Gay Lifestyle Facilitates Boy Prostitution. Homophile researcher, Donald West, admits in *Male Prostitution* that "sex abuse in childhood as a cause of male prostitution has become almost conventional wisdom," and, "the perpetrators are nearly always men." Yet West protests that while his study of male prostitutes found high rates of child sexual abuse, he felt there was a high rate of consent.¹⁵¹ On boy prostitution, West says,

Gay Search... comments on the fact that children are often given presents after cooperating with an abuser and writes: "it is easy to see how being rewarded for sexual favours can lead... very naturally to prostitution"¹⁵² ... Boyer (1989) has argued that the culture of gay bars and meeting places, often referred to as a sexual market place (Read, 1980) by its emphasis on casual encounters and sexual conquest, holds out to young gays the expectation of patronage by older males and presents prostitution as a more or less normal aspect of the gay scene.¹⁵³

Lloyd reports yet another "gay" child pornography case where a group of boys seeking "counseling" from a junior high "science teacher," were recruited into sodomy and pornography.¹⁵⁴ One Los Angeles schoolteacher brought "groups of boys aged seven through thirteen across the border every three months."¹⁵⁵ And West confirms common knowledge about both prostitution and homosexuality.

Many sexual assaults happening in later years were described during the interviews ... forced by clients and their accomplices to submit to unwanted, painful or damaging sexual acts. [J]ust as many men reported assaults in the course of sexual contacts unconnected with prostitution... the risk is to an extent inherent in some gay male lifestyles.¹⁵⁶

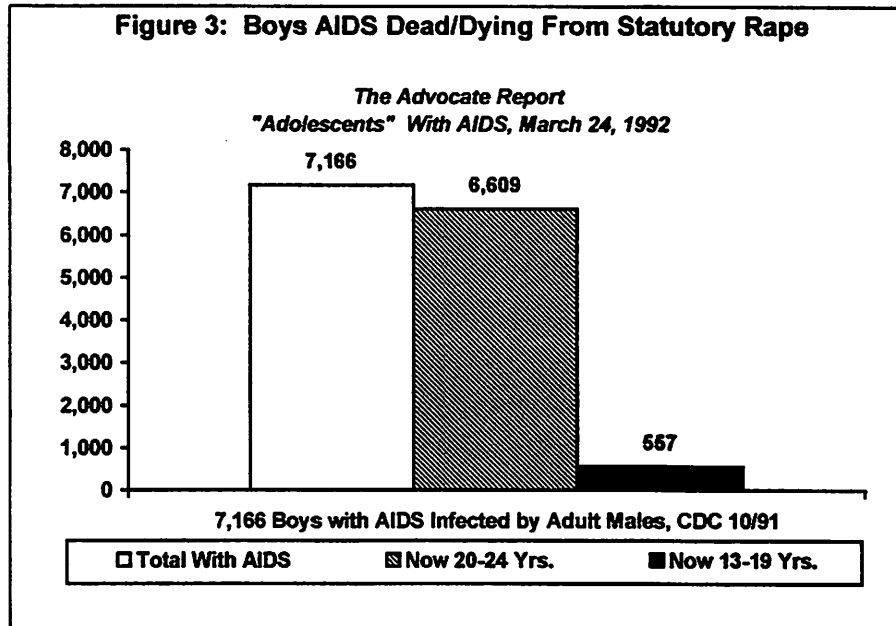

Ratio is 5:1 AIDS Boys to Girls: The toxicity of "gay male lifestyles" and homosexual versus heterosexual child abuse is represented by a [5:1] ratio of boy-to-girl AIDS victims. As documented in the Reisman & Johnson report, by 1991 the CDC identified 7,166 boys and 1,537 girls (also infected by bi/homosexual boyfriends) dying of AIDS.¹⁵⁷

Where are the thousands of child sex murder convictions for the men who fatally infected these boys (and girls) or the outcry in the establishment media on behalf of these

children? Instead of prosecution, schools provide carte blanche to predators by implying that boys with AIDS were "gay" from childhood.

By labeling boy AIDS victims "consenting gays," homosexual spokesmen "blame the victims," blaming their own deaths upon the young "initiates."

84% of Boys with AIDS are Infected by Adults: "Are you a man who has sex with men? If so, you should know that 1 in 5 of your prospective

partners could be infected with AIDS."¹⁵⁸

As discussed earlier, homosexual men are documented as stunningly promiscuous with "43 percent" admitting to sex with over 500 other men and boys.¹⁵⁹ This "1 in 5" chance of dying from AIDS is therefore 100% fatal for most children socialized into homosexual Gay Lesbian and Bisexual Youth school clubs. And, too many of these children will join what appears to be the financially rewarding "profession" of prostitution.

Why do no investigative reporters ask, "Which men gave 7,166 boys AIDS as of 1991"? That is mass annihilation! No homosexual press, no "gay" leader or organization demanded a moratorium on the activities of adult gay lecturers, "advisors," "guides" and "coaches" in the schools in the wake of the disease and deaths associated with homosexual sex. None have called for capture and punishment of the adult child sex abusers/murders. Even Gebe Kruks, a homosexual leader who protested these violations does not call for the arrests of the children's killers. Kruks wrote:

Gay boys.... *having sex for money, shelter, love*—they are at riskGay men view these boys as recreational toys to be used. I have heard many stories of HIV-positive men having unprotected sex with boys. They don't think it matters.¹⁶⁰

Boys Infected with AIDS by Homosexual Men: To hide the fact that 84% of AIDS children appear to be infected by bi/homosexuals, the "World AIDS Day" artfully reports that "16% of adolescents with AIDS, aged 13 through 19... have been infected through heterosexual contact."¹⁶¹

The Advocate included this table, (Figure 4), identifying at least 59% of adolescents with AIDS directly infected by adult bi/homosexuals. It is reprinted here verbatim.¹⁶²

Said *The Advocate*:
Now in the big cities, if you have sex with two [gay] men, you have a 50% chance of...someone who is HIV-positive."¹⁶³

Since homosexual activity allegedly starts younger than in the past—at about age 15¹⁶⁴ or younger¹⁶⁵ — “advisors” lure boys into “coming out” (“the most important rite of passage in gay life”) ¹⁶⁶ to venereal disease for most, and death for at least 25% in approximately 5 years.

Figure 4: A Minimum of 59% of Boys Infected by Men

“HIV Transmission Routes in Adolescents Aged 13-21 in the United States”

Male Homosexuals/bisexual males	51%
Transfusion recipients	22%
Male homosexual intravenous drug users	8%
Heterosexuals	8%
Intravenous drug users	6%
Other	5%

“(These statistics are taken from the study “AIDS Among Adolescents,” published in the October 1990 issue of the American Journal of Diseases of Children.)”

VIII “INTERGAY BATTERY” AS ADULT HATE CRIMES

If children are more at risk of sexual disease and prostitution from homosexuals than heterosexuals, are they more at risk from sexual violence as well?” We already addressed this in the citations to West, but in their frank but empathetic book, *Men Who Beat the Men Who Love Them*, homosexual activists David Island and Patrick Letellier document inter-gay battery as a primary homosexual health problem after 1) AIDS (males), Cancer (females) and 2) drug abuse. They write:

It is...likely...the incidence of domestic violence among gay men is nearly double that in the heterosexual population...as many as 650,000 gay men may be victims of domestic violence each year¹⁶⁷ ... 50 percent of gay male couples¹⁶⁸ ... We believe [heterosexual domestic abuse] is closer to 20%..¹⁶⁹ [D]omestic violence is acknowledged, talked about, and dealt with more in straight relationships than in gay male relationships.¹⁷⁰ (emphasis added)

The Advocate reports that at minimum:

- 75% of its readers admit to engaging in violent sex.
- 20% engaged in sadistic “bondage and discipline.”
- 55% engaged in other sex acts using painful objects.¹⁷¹

Compared to heterosexual distrust or dislike, the rare assault inflicted on someone at a bar, and the singular although horrible aberrant murder—it is fair to say that the on-going, most significant “hate crimes” against homosexuals are, as Kirk and Madsen noted, inflicted by homosexuals.¹⁷²

[In 1987] the San Francisco police responded to no fewer than 100 calls per month for gay and lesbian domestic violence ... [T]here are thousands upon thousands of victims of gay men’s domestic violence in the United States each month.¹⁷³

In 1981 the homosexual press reported that about 10% of San Francisco’s homicides resulted from homosexual sadomasochistic abuse.¹⁷⁴ Hiding these facts from the public

allows the use of the classroom to seduce children into a homosexual life of violence and sadism and too many into the trade in youthful prostitution and pornography. But, is there any *research* on teachers as predators?

IX. SESAME WORKS TOWARD A REMEDY

Survivors of Educator Abuse Emerge (SESAME): Yes, some. The "Helping Hands" and GLASS exposés allowed a rare peek into the inner workings of predatory teachers and counselors in power. On the evidence, pedophiles and pederasts, independently and organizationally, seek out jobs or volunteer where they can have access to children. Unfortunately an unknown %age of adult child abusers are music, sports, coaches and teachers,¹⁷⁵ as in the largely covered-up GLASS criminal convictions. The pederast magazine *Palavar* warns molesters of how to avoid arrest while obtaining children.

"[L]ook for employment... If you want to spend all your time with children you must have a legitimate reason for doing so; as a teacher helping children learn... as a social worker helping children in difficulties; as a play or youth leader helping children to enjoy their leisure time... child care, youth work, teaching... charity and voluntary organizations catering for the needs of children; there is the Free School movement; children's rights' and various alternative life-style projects... We believe that a paedophile relationship is no less legitimate and no more potentially harmful to a child than a normal parental relationship."¹⁷⁶

Five Pedophile Headmasters: With today's opportunities to bring sex into the classroom, responsible adults are obliged to question what number of those adults "helping" children on sexuality issues are likely pedophiles, pederasts or their naïve supporters. We now know Kinsey, for example, "was deeply influenced by five paedophile headmasters who were quite clear they had very warm relationships with young adolescent boys of twelve or thirteen" in one New England area.¹⁷⁷

Particularly as obscenity and pornography seduce and habituate even well "educated" men and women via the introduction of pornography in home, schools and library internet connections, vulnerable boys and girls are increasingly at risk from a growing molester constituency.¹⁷⁸ Just in the last few years the Nobel Prize winner, Dr. Carleton Gadjusek; American University President, Dr. Richard Berendzen; and American University psychology department head, Elliot McGinnies were convicted of pedophile associated felonies.¹⁷⁹ Degrees in higher education no longer appear to restrain predatory pedophiles.

SESAME Survivors of Sexual Abuse & Misconduct Emerge: "A Voice for the Prevention of Sexual Exploitation, Abuse, and Harassment of Students by Teachers and Other School Staff" focuses attention on sexual predators among a toxic subset of the teaching population. SESAME reports that *the Journal of Education Research* (1991) finds in its "Survey of high school graduates ... 13.5% of those surveyed said they had engaged in sexual intercourse with a teacher."¹⁸⁰

15% Of Students Say Sexually Abused By Faculty Or Staff: In yet another survey reported by SESAME, "The best estimate is that 15% of students will be sexually abused by a member of the school staff during their school career."¹⁸¹ "Criminal convictions of Ontario teachers in 1996-97 involve enough victims to fill an entire classroom."¹⁸² And, "Many

abusers are in positions of power or trust in relation to their victims which makes it easier to overcome a child's resistance."¹⁸³ Homosexual "volunteers" in schools and at the "Gay and Lesbian and Bisexual and Transgendered" youth clubs need to be viewed with old fashioned wariness about "bachelors" in general and homosexual bachelors in particular. This is again supported by the damaging reports from GLASS and SESAME regarding sexual predators' use of classrooms to access pools of child victims.

Post Kinsey's sexual revolution, school—and public libraries—have increasingly housed predatory authorities, dangerous to girls and boys.¹⁸⁴ One of the ways these predators harm children, has been their provision of pornography via the library internet connection. In fact, June 05, 2000, an e-mail on the rape-torture and murder of 10-year-old Jeffrey Curley was delivered to the American Library Association's "Office for Intellectual Freedom List." Stuart Shepard, said that the boy's killers "stopped at the Boston Public Library, where Charlie Jaynes [one of the boy's killers] accessed the North American Man-Boy Love Association (NAMBLA) Web site." *The Miami Herald* reported a police internet hunt for child molesters.

The Internet is a new playground for pedophiles ... We've arresting firemen, lawyers, judges, teachers, coaches, cops – you name it....The task force arrested a prominent lawyer and former judge... [who planned to start] a sexual relationship with a 14-year-old boy.¹⁸⁵

X. THE ALA SERVING PEDERASTS, PORNOGRAPHERS AND PEDOPHILES

The American Library Association (ALA) and our public libraries, as the support system for our schools, are contributing as much as the schoolroom to the recruitment of children into sexual promiscuity and deviance. Hopefully a court will decide, as in the case of the murdered Jeffrey Curley, if the ALA and American libraries are contributing also to both child rape and murder. As a member of The Media Coalition, the ALA commonly appears as a friend of pornographers. For example, in *New York v. Ferber* (458 U.S. 103, 1982), the ALA argued for Ferber, for the right of adult parents and guardians to use, coerce or force their children—of all ages—to be filmed in "Sexual Conduct," heterosexual, homosexual and bestial. The U.S. Supreme Court unanimously ruled against Ferber as legalizing child sexual abuse for profit. The abuse the ALA defended involved the use of children of all ages in,

*actual or simulated sexual intercourse, deviate sexual intercourse, sexual bestiality, masturbation, sadomasochistic abuse or lewd exhibition of the genitals.*¹⁸⁶

The ALA in San Francisco allowed its rooms to be used by NAMBLA as a meeting place and in 1994, *American Library Association v. Reno*, No. 92-5271, slip op. at 28, the ALA was repudiated in its defense of child pornographers by the United States Court of Appeals, District of Columbia. The use of its prestige to aid pederasts and child pornographers suggests the ALA's commitment to an historically "anti-American" cultural standard – adult sex with children. And, censored from most press reports on the rape-mutilation-murder of 10-year old Jeffrey Curley is the aid of the non-filtering library system in the brutal crime. The gay killers "used a computer at the Boston Public Library to access the NAMBLA Web Site to summon up the "last bit of courage" needed to carry out the crime."¹⁸⁷

While some librarians attempt to remain independent from ALA policies, ALA authority

is manifested in the stock of radical leftist books, periodicals and journals promoting most leftist policies, including that of gay/lesbian "rights" as well as in the *exclusion* of conservative titles from library shelves.¹⁸⁸ The librarians' union's refusal to filter internet pornography—even from children—in community libraries, fully demonstrates ALA's leftist Marxist or fascist-style control of our public libraries

XI. WORLD WAR II: THE GERMAN SOCIALIST TEACHERS ASSOC.

The leftist ALA recalls the National Socialist Hitler Youth groups installed in the nation's schools over German parental protests. In order to wrest the German youth from their parents' traditional German ways, Adolph Hitler obtained nearly total cooperation from German teachers. The German "National Socialist Teachers Association" recruited school boys and girls to serve the new Party. Children's literature analyst Christa Kamenetsky notes that German critics of children's literature complained bitterly *about the removal of the Ten Commandments from German studies* and the substitution of coarse and violent stories *which ridiculed parental religious values*. Maria Trapp gave evidence of such assaults on German traditions in the story of the Trapp Family Singers:

This morning we were told (by the Nazi's) at the (school) assembly that our parents are nice, old-fashioned people who don't understand the new Party. We should leave them alone and not bother. We are the hope of the nation, the hope of the world. We should never mention at home what we learn at school.¹⁸⁹

From the perspective of one who has lost hundreds of family members in the Holocaust, the role of the American Library Association, the National Education Association and other teacher's unions too closely mimics Nazi library history. Hitler's rise to power—based on the violent homosexual "Brown Shirts"—is a critical part of that concern, especially due to the modern, scandalous myth of homosexual persecution by the Nazis.¹⁹⁰

This is especially worrying when one examines the successes of leftist librarians and teachers in similarly removing the Ten Commandments from our schools as they also devalue the morals and values of parents and American tradition:

In order to achieve a total control over the minds of children, the Nazis... engaged thousands of censors, drafted mainly from the members of the National Socialist Teachers Association and the Reich Youth Leadership organization¹⁹¹ who would systematically screen every book that was published, sold, loaned, purchased, circulated, or discussed. *Through school reforms and a reorganization of libraries throughout the nation they further institutionalized censorship measures that would separate the books they preferred from those that were to be discarded...they hoped to reach their goal... in the decades to come... [T]he Nazi's made children's books into the means toward another end that would perpetuate the power of the Third Reich both at the time and in the future.*¹⁹²

The current "politically correct" schoolrooms, removing traditional American beliefs and substituting leftist sexual and anti-religious themes are a replay of the German National Socialist Teachers Association program for German youth. *World War II would not have been possible but for the role of the German National Socialist Teachers Association in the mass recruitment and programming of German youth*—wresting them from the religious traditions

of their parents and using government schools to propagandize the values of the new authorities:

[When] the German Student Association remove[d] all "un-German" books from the libraries, the public did not feel altered to systems of control that soon would permeate all spheres of German cultural and political life.¹⁹³

So too we are seeing new "systems of control" establishing "hate speech" that disallows criticism of bi/homosexual recruitment while committing graphic pedagogical sexual assaults on school children. Kinsey's fraudulent cultural and sexual data helped grant elite, "educated" pedagogues undeserved power. Once "uneducated" parents lost local control of their children's education, we saw the failure of our nation's public schools and subsequently the failure of our nation's children by every measurable criterion of health and well-being from scholarship to sexually violent criminality. Unless teachers are returned to their proper roles as working *under the authority of parents and accountable as such to American parents and society*, we may anticipate continued and growing youthful disability and violence.

XII. WHAT IS HOMOSEXUAL "ORIENTATION?"

The Reisman & Johnson Comparative Analysis. *The Reisman & Johnson Study: Partner Solicitation Language as a Reflection of Male Sexual Orientation* (1988-1992) examined the claim that "gay men lead daily lives that are basically similar to those of heterosexual men."¹⁹⁴

The study, conducted by this author and statistician Charles B. Johnson, Ph.D., (1995) sought, via an analysis of the personal advertisements of two male partner-seeking populations—one homosexual (*The Advocate*) and one heterosexual (*The Washingtonian*). The mission was to determine if these two male populations supported the increasingly popular view that "The sex and love lives of most gays and straights today are both similar and conventional."¹⁹⁵

Reisman & Johnson's study (which can be verified by obtaining the same journal copies in most large public libraries) found the sample of homosexual bachelors wholly different from that of heterosexual bachelors in their partner seeking conduct. Below is a summary of five key research findings comparing upscale, liberal, largely white, educated *Advocate* bi-homosexual bachelors to upscale, liberal, largely white, educated *Washingtonian* heterosexual bachelors.

- 86% of *Washingtonians* versus 2% of *Advocates* sought/offered time commitment;
- 49% of *Washingtonians* versus 3% of *Advocates* sought/offered non-sexual interests;
- 5% of *Washingtonians* versus 63% of *Advocates* sought/offered prostitution;
- 0.41% of *Washingtonians* versus 25% of *Advocates* sought/offered sexual sadism;
- 0.45% of *Washingtonians* versus 15% of *Advocates* sought/offered teen sex.

These findings show dramatic "orientation" differences on all critical variables not statistically attributable to "chance," all of which report, *statistically*, a homosexual lifestyle of compulsive and sadistic promiscuity, disinclined to commitment and inclined to prostitution and the sexual abuse of minors—at best. In fact, Kirk and Madsen confessed, "There is more promiscuity among gays (or at least among gay men) than among straights."¹⁹⁶ Moreover, despite their heavy focus on finding sex partners, the *Advocate* carried no major condom advertisements nor did their In Search Of (ISO) advertisers express any condom requirements for sexual partners.

XIII. CONCLUSION

Tom Reeves, who had come out as a boy-lover [sic] a year earlier, said "over five hundred men had spoken with him since then... and who are they? Almost to a man they are teachers and boy scout leaders and boys' club leaders!"

Story about Tom Reeves, NAMBLA Founder.¹⁹⁷

Why is Kinsey's role as the father of sex "science" important to any debate about homosexual and sex education in the schools? The mandate to teach bi/homosexual and heterosexual experimentation as legitimate for children and youths originated with Kinsey's data which formulated a revolutionary belief in child and juvenile sexual need and entitlement.

Justification for teaching about sex acts to children is based on the unverified claim that children are sexual from birth and that juveniles are not able to be self governing because hormones are "raging" – leading most youths, naturally, to sexual activity and AIDS. This requires, argue the sex "experts," graphic sex instruction from allegedly older, wiser teachers or "guides" on sexual techniques and related issues. Since the teaching of Kinseyan sex knowledge began, sexual disease and dysfunction are rampant and show no signs of abating.

Fallout from child abuse is seen not only in resulting bi/homosexuality, misogyny, sexual sadism and/or other disorders, but also in the growing number of deadly sexually transmitted diseases and the noxious influence of the homosexual lobby upon the pediatric community. Homosexual fallout now reaches into every baby's crib in the United States.

Delicate infant constitutions are universally at risk from federally mandated vaccinations to "protect" them from Hepatitis B, *historically known as a homosexual STD*.¹⁹⁸ Many such mandated promiscuous, "life style" vaccines for tiny developing infants and children wait in the wings. Recent Congressional hearings on the experimental nature of certain vaccine protocols support the question: *Why are we putting our entire child population at risk of mortal and chronic pathologies – in order to make them immune from venereal diseases which are endemic to a sexually promiscuous "homosexual culture"?*

Pedophile organizations that work to legalize adult sexual abuse of teenagers and children have long campaigned for such a universal vaccination program. The proposal is seen in documents such as "A Child's Sexual Bill of Rights." This charter, distributed in our own university system to students studying human sexuality, calls for "aids to prevent venereal disease" as a prerequisite for legalizing adult, including parental sexual abuse of children. The "Child's Sexual Bill of Rights," would *legalize sex*, "with a parent, sibling or other responsible adult or child, protected and aided with contraceptives and aids to prevent venereal disease."¹⁹⁹

Vaccinated child prostitutes could certainly survive a bit longer than unvaccinated children. It is critical to make known the causes for homosexuality, to aid its burdened victims. It is imperative to stop the spread of sexual diseases and other related disorders—if only to protect our children from becoming involuntary guinea pigs for a cocktail of promiscuous sexual "life style" vaccines which radically endanger our children while protecting their future victimizers.

A return to a healthful path is difficult indeed, following the isolation of youngsters from friends and family and their dependence upon the members of their new warmly welcoming, exciting and adventurous homosexual adult and youth groups for confirmation of self, belonging and "visibility." There are however, several hundred homosexual recovery organizations nationwide. As with the alcohol recovery movement, which was disparaged for decades until proof of success slowly emerged, there are increasing reports and personal testimonies of restoration.²⁰⁰

Richard Cohen, author of "Alfie's Home," a children's book about Cohen's own life, his early sexual assault by an uncle, his subsequent recovery from the trauma, and his marriage and family, heads one such organization, The International Healing Foundation, PO Box 901, Bowie, Maryland, 90718. Recovery agencies are extremely active, despite the attempts by homosexual leaders and establishment media demanding that all homosexuals abandon any hope that they can marry, love safely, faithfully and joyously and live a productive, exciting life raising a traditional family enriched by their children and grandchildren.

The public should be aware of the vigilant efforts to negotiate a child's "coming out" as well as the special interests of the sex industry in increasing children's entry into prostitution. Adult society is responsible for being sufficiently mature to protect our young. Our individual and societal self indulgence and failure is therefore visible everywhere. *No blame is due any child in this tragic process.*

The "coaches," guilty of alleged "consensual" child abuse, should be located, arrested and prosecuted to the full extent of the law. And, as there is, on the evidence, a definite connection between homosexuality and the myriad pathologies, including pedophilia, schools and youth organizations should be legally liable for allowing homosexuals any authority or influence over children. This is a sure way to severely limit the traffic in child prostitution.

This essay is dedicated to those children scarred by bi/homosexual experiences. Wherever possible, these children should be peacefully reunited with their estranged families. Where that is not possible, until age eighteen these troubled youths should be placed into monitored, protective custody in a secure, *asexual environment*, safe from sexual predators of any "orientation," where they may spiritually, intellectually and physically recover. Summarizing the danger to these "United" states inherent in the separating of children into sexual "orientations" is a warning bequeathed to us by the Father of Our Country, General George Washington:

But as it is easy to foresee that, from different causes and from different quarters, much pains will be taken, many artifices employed to weaken in your minds the conviction of this truth; [that we must forbid] ... every attempt to alienate any portion of our Country from the rest, or to enfeeble the sacred ties which now link together the various parts.²⁰¹

¹⁴² This author "met" Jeffrey Dahmer in July 1991, just before he was arrested. Dahmer, naked except for his sadomasochistic leather straps, chains and crotch gear, jumped off a parade float manned by his sadism colleagues in the Milwaukee Wisconsin gay rights parade—here is where he seduced his last young victim—to greet a group of us onlookers.

In the latter, young girls are seduced and raped but rarely illustrated as stabbed or cannibalized (unless in a scene with a boy). For example, one *Playboy* cartoon has Santa, having just eaten a little lad, tell his elf, "Bring in another!" A *Penthouse* cartoon depicts Santa having blown apart a small boy's brain with the caption, "That'll teach you to be a good boy," while in another *Penthouse* cartoon a Victorian family at the dinner table, prepares to eat a headless, naked, cooked boy as father says, "And God bless Tiny Tim," (Tim's crutch laid aside forever). *Playboy*, January 1977 at 221; *Penthouse*, December 1977 at 208, *Penthouse*, December 1988 at 210.

- ¹⁷⁸ Judith Reisman, *Images of Children, Crime and Violence in Playboy, Penthouse, and Hustler*, Prepared under Grant No. 84-JN-AX-K007, U.S. Department of Justice, Juvenile Justice and Delinquency Prevention Division, (1984). Reisman directed a two-year content analysis of images of children and crime and violence in *Playboy*, *Penthouse*, and *Hustler* from the years 1953 to 1984. Reisman's study documented that each issue of *Hustler* averaged images of 14.1 children and pseudo-children alongside 47 images of crime and violence. Moreover, 52 % of child photos were sexually explicit and most cartooned children were sexually violated.
The contemporary Kinseyan sex science leader, John Money of Johns Hopkins was exposed February 11, 2000, "Dateline" as well as on "Oprah" and the "Today Show" as a sadistic, pedophilic-oriented psychopath. See *As Nature Made Him* by John Colapinto, Harper-Collins, New York, 2000 for the story behind Money's sex change operations at Johns Hopkins.
