Kinsey: Crimes & Consequences

Judith A. Reisman, PhD.

The Institute for Media Education, Inc.

Would you want your child to be taught about human sexuality based on the research of a man who made porn films, seduced his male students, practiced sado-masochistic homosexual rituals and who hired child molesters to assault hundreds of children, including babies for his "research"?

Now, for the first time, you can learn the explosive, hidden truth about Prof. Alfred C. Kinsey, whose famous "sex studies" sparked the sexual revolution of the 1960s and whose phony data serve as the basis of human sexuality education today, from self-help books and college texts to your child's class in "AIDS prevention" or "sex ed."

Dr. Judith Reisman reveals the full story of how Kinsey and a small group of like-minded "sexperts" took our society from Chastity to Condoms in just two generations. Should public officials satisfy themselves that there was crime and fraud in the Kinsey Reports, whole shelves of law and "social science" books will have to be rewritten. (Sensitive materials, recommended for parents and adults.)
