THE ANATOMY OF COMMUNIST AND SODOMIST FRONTS

The Random House Unabridged Dictionary defines Sodomy as: "Anal or oral copulation with a member of the opposite sex; or copulation with a member of the same sex." Since Sodomy is the defining conduct of those usually called Gays and Lesbians, they are Sodomists.

The Sodomists held a huge rally in Washington, D.C. on April 25. It was called, "1993 MARCH ON WASHINGTON FOR LESBIAN, GAY, & BI EQUAL RIGHTS & LIBERATION". Reports on the number of participants in the rally vary. The organizers claim over 1,000,000, while the Associated Press estimates 200,000, and the National Park Service says 300,000. It will be interesting to note whether the biased figure of over 1,000,000 is quoted as the attendance in future reports in the media.

How many of those participating were actual Sodomists? There is no way of knowing this with precision since, like the Communists, the Sodomists are skillful at recruiting many from outside the Sodomist fold as their conscious or unconscious servants.

A Communist Front

Throughout the years, the Communists have been experts at multiplying the political and social power of their members by organizing Communist Fronts. A Communist Front is an organization which is formed by the Communists to entice and involve non-Communists and even anti-Communists in an association which seeks a limited, and often temporary, Communist objective.

The real objective of a Communist Front is to increase Communist power, but the announced objective is usually some desirable objective such as peace, improved economic conditions, or freedom from oppression.

I am NOT accusing Sodomists of serving as a Communist Front or being conscious allies of Communism. I do affirm, however, that the Communists and the Sodomists use similar techniques.

In my book, "You Can Trust the Communists (to be Communists)", I describe the structure of a Communist front and state that it can be best understood as a series of concentric circles. At the center is the Communist Party, which consists of a relatively small group whose members are organized, disciplined, and dedicated. Some of

these party members are open Communists while others are secret, and are often referred to as crypto-Communists.

Surrounding this central circle, there is a larger circle which represents the fellow travelers of Communism. Fellow travelers are those who believe Communist doctrines and approve of Communist conduct, but who are not actual Party members. This enables them to deny that they are Communists when questioned.

Surrounding this circle is a larger one which contains the sympathizers with Communism. Surrounding this is a still larger one containing psuedo-liberals who profess to disagree with the doctrines and activities of the Communists, but who support their "right" to teach, organize, and enjoy all the freedoms of U.S. society.

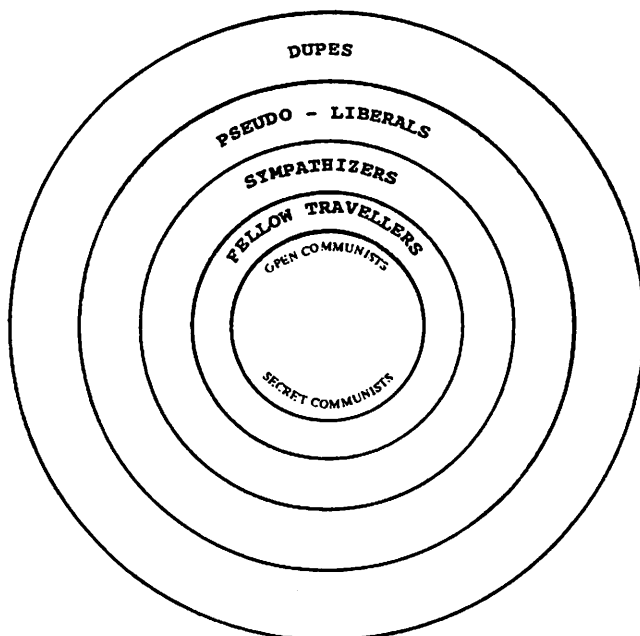

Surrounding these circles is the largest one which contains the dupes, who are well-meaning individuals, often with a Christian orientation, who are captivated by the announced objectives, and who are unaware of the directing involvement of the Communists.

The Sodomist Front

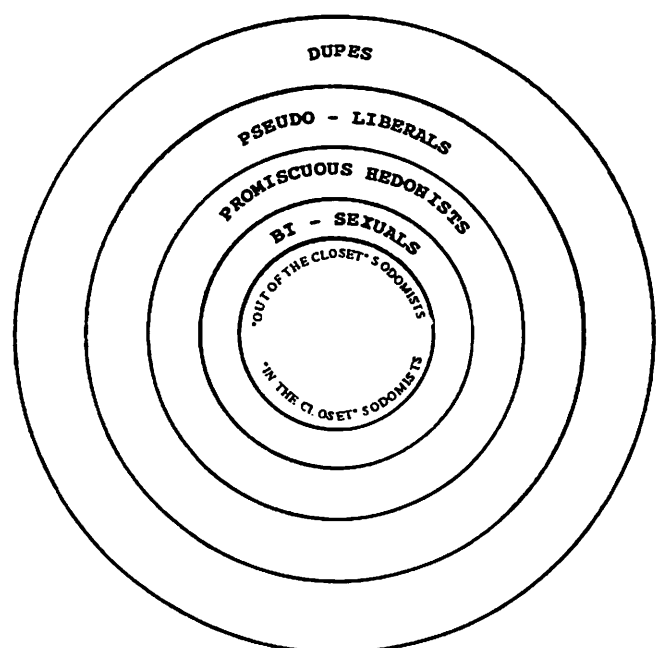

The Sodomists are pursuing their objectives through similar Fronts. The circle at the center of a Sodomist Front is made up of Sodomists. These are divided into two groups,--those who are "out of the closet", and those who remain "in the closet".

Surrounding the central circle, there is a larger circle which consists of bisexuals. Surrounding this circle, there is a still larger one which contains promiscuous hedonists who operate in accordance with the principle, "If it feels good, do it." A greater circle contains the psuedo-liberals who are willing to fight for the right of others to indulge in conduct which they themselves would not enjoy. The outer circle contains those dupes who think that they are supporting equal rights and liberation.

COMMUNIST FRONT

SODOMIST FRONT

The Winners

Who are the real winners who emerged from the Washington, D.C. march? They are the AIDS virus, the syphilis spirochaete, the tuberculosis bacillus, the hepatitis virus, the gonococcus that causes gonorrhea, and the pharmaceutical manufacturers of medications to alleviate chronic diarrhea. These are victorious because the increase in the practice of Sodomy, which the march promoted, will enable the organisms to move to new enlarged premises, and the pharmaceutical companies will benefit because chronic diarrhea is one of the common consequences of Sodomy.

Playing in the Sewer

Sodomists use the sewers of the human body, the anus and rectum, as playgrounds. Sewers abound with disease-causing organisms. Therefore, Sodomy frequently generates organic disease.

Typical diseases, which are spawned by Sodomy, are specified by the world-leading scientist and historian, Mirko D. Grmek, in his book, "The History of AIDS", which is published by Princeton University Press. Describing the results of the homosexual revolution in San Francisco, he writes:

"In medical terms the almost immediate result was an increase in the 'classic' sexually transmitted diseases, notably syphilis and gonorrhea; of certain viral diseases, such as hepatitis, herpes, and cytomegalovirus; and intestinal parasites such as amebiosis. Skin disorders of an otherwise relatively rare nature, and chronic diarrhea, become the daily lot of homosexuals. The rise in these disorders preceded the AIDS outbreak, and already indicated the point at which the epidemiologic situation was ready to explode. In San Francisco's Castro district and New York's Greenwich Village, the spread of AIDS in 1981-1982 was catastrophic, faster than anywhere else in the Western world. It was thus in the crowded ranks of the homosexual community that the AIDS virus finally passed the point of no return in its epidemic spread."

Demoralization Aids Communism

The causative relationship between Sodomy and AIDS is demonstrated by the statistics of the cause of the AIDS infection in Los Angeles County, which were published in the LOS ANGELES TIMES edition of August 10, 1992. The report states that 79 percent of the 15,616 sufferers from AIDS contracted the disease from "homosexual/bisexual male" contact, which is a euphemism for Sodomy.

There is no justification for charging that the Homosexual Revolution is allied with the Communists, but it is accurate and just to recognize and state that this Revolution has caused the AIDS epidemic in the U.S.A., and has added to the demoralization and despair which provide fertile soil for Communist germination and growth.

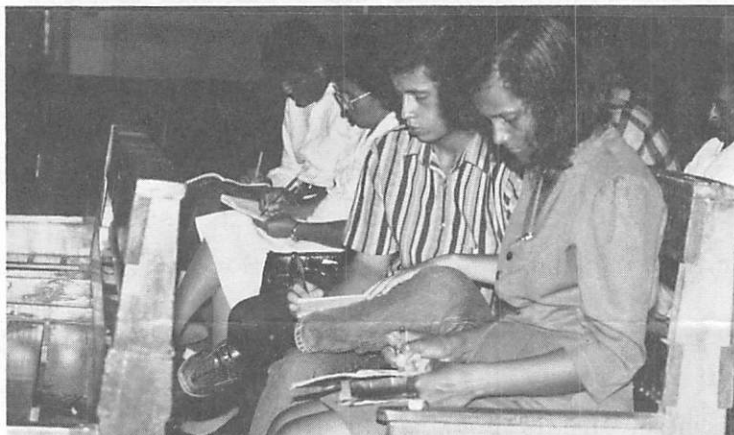

The AIDS virus, and the other organisms which cause sexually transmitted diseases, have no civil rights. They should not be liberated to cause untold suffering and death.

ANTI-COMMUNISM SEMINARS IN PANAMA, COSTA RICA, AND GUATEMALA

By Rev. James Colbert - Part II

From Costa Rica we flew to Guatemala, which is the most populous country in Latin America, with a population of 14 million. Seminars had been planned for Quetzaltenango and Guatemala City.

In Quetzaltenango we conducted a two-day seminar for pastors only. I always regard such seminars as being most important, because, by teaching pastors, the message can be multiplied many times. The pastors preach it to their congregations.

Guerrilla Activity

Communist guerrillas are operating around Quetzaltenango. We were informed that there are 10,000 of them. Two experiences confirmed their presence.

As we were leaving the city, our car was stopped at one of the intersections by a group of people dressed in colorful outfits with their heads covered with hoods. The hoods had holes cut out for the eyes and the mouth.

I asked the people in our car who these people were and what they wanted. I was informed that they were university students who were demanding money from every car that passed through the intersection. If they were not given the money they demanded, they used paint and paint brushes to deface the car.

Two of the hooded approached our car. One was short and one was tall. The

short one spoke to the driver. Through the opening in the hood I could see make-up around the eyes, and I knew that it was a girl. After hearing her demand, I spoke to her in English, but she did not understand, and said politely, "buenos dias", meaning good day.

I asked those in the car where the money went, and how much is collected in this manner. They replied that no one seemed to know very much about the operation. The students do not account for what they do with the money, and the government does not interfere. There is a strong suspicion that the funds go to support the Communist guerrillas.

Our second experience was also informative. On the two-lane highway, not far from Quetzaltenango, we saw a line of soldiers in single file coming down the hill from the jungles. They seemed ready for action. Each soldier had his rifle in front ready to fire. Someone said, "They are looking for guerrillas."

Communist Tactics

At the seminar I explained one of the reasons why the military was having such a difficult time in defeating the guerrillas. Communist agents, who had been recruited as students, come to the poor people and enlist their friendship and support. They do this by sympathizing with their conditions, and by telling them that after they overthrow the existing government, their children will have adequate food, clothing and medical care. They promise the people that they will have all things which the rich now have.

The poor often believe the Communist promises and help the guerrillas by giving them food, informing them when the soldiers are coming, and hiding them. Thus, the situation arises which was described by Mao Tse-tung when he said that, "The people are the sea, and the guerrillas are the fish."

Communism needs the support of the people to bring its revolution to a successful conclusion. They win support by deception. The only antidote to deception is truth.

We challenged the pastors at the seminar to learn and tell the truth about Communism. It is the enemy of God, church, home, country, and the poor. By telling the truth about Communism to the poor, they can deprive the guerrillas of popular support.

Guatemala City--The Appeal of Liberation Theology

Our final seminar was conducted in Guatemala City. Many university students, pastors, and church leaders attended. Following Sergio's lecture on Liberation Theology, a young university student stood and said:

"I am a Christian, a member of this church, and a university student. I believe that Liberation Theology is a good alternative option for Guatemala and for Latin America. The United States continues to oppress our people by paying them three quetzales a day (60 cents) in their factories. The missionaries from the United States came to Latin America with an American Gospel, but thanks to Liberation Theology, we now have our own Latin American theology, on behalf of our poor people. Che Guevara fought for a 'new man' in Latin America.

"In Cuba and Nicaragua they call each other comrades because all share the bread. The Bible also speaks strongly against the rich. Maybe taking up arms is not the answer, but I do believe that Liberation Theology is an alternative for Latin America."

His statements were refuted, but he is one of thousands of university students in Latin America who are being taught the Marxist analysis of society in their universities, and who are convinced that it is the truth. They graduate believing that the United States is responsible for the poverty, hunger, and oppression that surrounds them.

As always, many at this conference asked for our literature and the monthly newsletter. It will be tragic if we are forced to discontinue these truth seminars because of inadequate financial support.

The Murcia Girls

It was a joy to see the three Murcia sisters--Ericka, Tilcia, and Luxmi. They are the daughters of Evangelist Antonio Murcia of Guatemala, and Crusade supporters have been contributing to provide them educational scholarships.

They write:

"Please know that all three of us are so thankful for your help. Luxmi has finished her training and is now working. If it had not been for your financial support, she would have been unemployed. Tilcia is doing well in her bi-lingual secretarial course; she will finish in June of this year. Ericka is taking a secretarial course in computers and will graduate in December, 1994. In this country these studies are unreachable for us poor people. If it were not for you, we would not have had this opportunity."

We commenced supporting these girls in 1991, and rejoice in their progress. The university expenses for Ericka and Tilcia are paid up through June, and it will then be necessary to send additional funds for the last six months of 1993. I do not know the exact figure. The sum needed will be about \$1800. Our bookkeeper informs me that the Murcia sisters educational fund balance is \$36. Will you help?

As Jesus said: "The field is white unto harvest, but the laborers are few." Please partake in this labor of love by your prayers and gifts.

THE RUSSIAN DANGER

Boris Yeltsin was supported by close to 60 percent of the Russian voters in the recent referendum. Democracy and free enterprise prevailed. The Communist-Fascist Alliance, which is seeking to displace him, was unsuccessful.

Nonetheless, the situation in Russia is fraught with peril. With its vast horde of nuclear weapons, if Russia becomes involved in civil war, the danger to the entire world will be enormous. Everything that the U.S.A. can do to avert such a tragedy should be done.

SO COMMUNISM IS DEAD? HA! HA!

Despite the liberation of the peoples of the former Soviet Union and the Captive Nations of Eastern Europe from Communist tyranny, the Communist Party U.S.A. continues its activity and is making substantial progress. Evidence for this is presented in the April 17 edition of PEOPLE'S WEEKLY WORLD, the U.S. Communist newspaper.

The U.S. Communists continue to pose as friends of the poor and oppressed and thereby deceive many. The following article reveals their tactics:

Hundreds at CP rally hear calls for action to ease economic crisis

LOS ANGELES – Over 300 people came to an April 4 rally here, called by the Southern California District of the Communist Party USA. They came from all over Southern California – San Diego, Orange County, Riverside, San Bernardino, Santa Barbara, San Luis Obispo as well as every part of Los Angeles.

"The most outstanding feature of this rally was all the new faces. Well over 100 had never been to a Communist Party event before," said Evelina Alarcón, chairperson of the Southern California district. "It was so exciting to hear their reaction to the ideas and action program of our Party relative to the Clinton administration, the economic crisis and the world Communist movement!"

The audience cheered when featured speaker Sam Webb, National Labor Secretary of the CPUSA, said, "Instead of President Clinton talking to Yeltsin in Canada, he should be listening to the unemployed, homeless, hungry and victims of police violence in Southern California."

Webb told the crowd, "Your legislators are trying to save thousands of jobs by trying to save California's naval

bases. Tell them that they can do both – close bases and not lose a single job. They can close the useless, totally worthless, very, very expensive Guantánamo naval base on Cuban soil.

"This would save more money than closing all the naval bases in California and not lose a single job. Tell your senators and congresspeople, 'Guantánamo Bay, stupid!'"

As part of the promotion for the rally, an ad was placed in *Variety*, the oldest and most influential newspaper for Southern California's entertainment industry.

Referring to this ad, Alarcón said, "We made a little history this week. The last time the Communist Party was in print in *Variety* was during the 1950s when the House Un-American Activities Committee was conducting 'witch hunts' in Hollywood. This ad breaks a 40-year silence. In its small way, *Variety* is saying to Hollywood, 'It's OK to associate with Communists.'"

"But I want to take it a step further," continued Alarcón, "and say to Hollywood: It's OK to join the Communist Party! The quality of movies, television and the theater would improve with a lot more

'Reds' in the industry."

Next came Tony award winning actor John Randolph, who plays the father of TV's "Rosanne," who spoke about the unanimous resolutions passed by the Screen Actors Guild and AFTRA against the Hollywood blacklist. "In passing these resolutions, we pledged never to let it happen again," Randolph said.

Over \$5,000 was raised at the rally for the *People's Weekly World* fund drive. Adalila Zelada, a 16-year-old leader of the Young Communist League, spoke about the Jobs for Youth campaign of the YCL. She proudly announced that the YCL in Los Angeles had quadrupled in size since January.

This rally marks the third Communist Party rally held in Southern California during the last five weeks. These rallies are part of the district's "SOS to President Clinton" postcard campaign. Hundreds of postcards and youth jobs petitions have been signed already. Many people have congratulated the Party on its street organizing. They say, "That's what we need, more people like you in our communities."

LET THE BLOOD FLOW?

The riots which followed the verdicts in the first Rodney King trial, caused massive destruction and death. Despite this, or because of it, they were described by the Chairman of the Revolutionary Communist Party, Bob Avakian in these words:

"REVOLUTIONARY GREETINGS TO ALL THE SISTERS AND BROTHERS WHO HAVE RISEN UP IN RIGHTEOUS REBELLION IN L.A.!

"This rebellion was the most beautiful, the most heroic, and the most powerful action by masses of people in the U.S. for years and years. It sent shockwaves throughout the U.S. and around the world, striking fear and panic into the oppressors and causing the hearts of oppressed people everywhere to beat faster with joy and hope...

"This rebellion brought out more forcefully into the open that the U.S. is a society based on class exploitation, and it showed the tremendous potential of the proletariat, the exploited class of all races and nationalities, to unite all the 'have-nots' and lead all the oppressed to make revolution, 'overthrow this 'modern-day' system of slavery called capitalism and sweep away all forms of slavery and oppression." (REVOLUTIONARY WORKER, March 28, page 9)

The Revolutionary Communist Party worked hard to promote a similar riot after the verdict on the second trial (the federal trial) of the police on the charge that the civil rights of Rodney King had been violated. They sent special envoys to Los Angeles to try to promote a major riot. Avakian wrote:

"Brothers and Sisters: Our Party, the RCP, is prepared and determined to stand with the masses of people in the fight against the system and to carry this fight all the way through, and not to sell-out or turn back, no matter what the enemy uses to come at us, whether it be bullets or bribes. We are willing and ready to take on the responsibility of building the revolutionary understanding, organization, and fighting ability of our class, the proletarians, and all oppressed people, so that we can move on to carry out the great transforming and cleansing process of proletarian revolution.

"This system has seen its doom in our uprising, and it is time to be moving on to make that a reality--to finish off and bury this system forever."

Avakian and his cohorts are lusting for unlimited bloodshed in the U.S.A.
